

Blackboard 101

Ever feel like you are trying really hard to figure something out but you're running in circles? No matter how many times you try to get an answer, you seem to be doing it the wrong way.

Come to the Student Village Classroom Tuesdays and Wednesdays from 2pm-4pm and 7pm-9pm for the first three weeks of classes to figure out what you're missing.

Look at your syllabus, make sure you are checking your online courses correctly or just face to face courses, and see how to contact your professor with a question.

Shellie Robinson will be in the Dorms Classroom to answer any of your questions and help make your first week of school less stressful.
