

Meet the SUNY Broome Biology Tutors

Emily Gunn

Hi, my name is Emily Gunn and I'm a tutor for Anatomy and Physiology I and HIT 106. I graduated from SUNY Oswego with my Master's in Business Administration in 2020, and looking to further my education in the physical therapy field! In my spare time, I enjoy teaching dance, spending time with my 1 and a half year old pup, Finley, and taking on new adventures!

Hannah Tyrrell

Hello Everyone! My name is Hannah Tyrrell. I am the supplemental instructor for Dr. Musa's BIO 131 and 132 courses. Additionally, I work in the drop-in science lab tutoring a variety of courses including General Biology, Microbiology, and Anatomy and Physiology. Additionally, I tutor some American Sign Language. :)

I am also currently a student completing my Senior year at SUNY Cortland and studying Speech Pathology and Audiology. After graduation in the spring, I am getting married to an amazing man and we are going to have a happy little family with our dog, Coal.

Anatomy and Physiology has been one of my passions ever since I first took the course. I am constantly telling my friends and family about all the crazy and interesting things to discover about the human body. I absolutely love helping others discover the joys of science and the human body through SI sessions!

Debbie Miller

Hello, I am Debbie Miller!

I tutor Biology and Chemistry at SUNY Broome. I have been Melissa Glenn's SI leader for Anatomy & Physiology for several years. My background is in Molecular Genetics and New Media Design. I love combining art and science to make learning fun and colorful!

My favorite color is orange, my favorite season is Fall, and I love coffee and cats. I have two cats and they have been helping me tutor online the past year and a half. Tutoring at SUNY Broome is one of the most rewarding experiences of my life, and I am so glad I can help students tackle tough topics in more interesting ways.

Katie Lee

Hello! My name is Kate and I am a biology major at UB. This is my first semester tutoring BIO 131 and 150 for Professor O'Donnell. I really like revisiting material from my two favorite courses at Broome and helping other students develop their own understanding of some really cool concepts! Outside of school and work, I spend a lot of time hiking and trying recipes from The Great British Bake Off. I also have two cats that frequently interrupt my online tutoring sessions.

Gavin Bleir

Hi! My name is Gavin and I am a tutor for CHM and BIO 131 with Broome. I am currently a first year nursing (Broome) and fourth year psychology (UB) major. Outside of school I love anything outdoors and love everything from climbing to scuba diving. I hope to see you during my open hours on the second floor of the library, see you then!
