

November 2017

By the numbers: 63 colleges and universities will be at Transfer Day on Nov. 2

November 1, 2017

Buzz

So far, 63 colleges and universities have signed up to attend SUNY Broome's Transfer Day, which runs from 10 a.m. to 12:30 p.m. Thursday, Nov. 2, 2017, in the Baldwin Gym! The event will give students the opportunity to learn about their programs and campuses.

The institutions represented are of every size, type and location, and include highly selective schools. In years past, participants have included Binghamton University, Clarkson University, Cornell University, Ithaca College and most of the four-year SUNY schools, as well as Pennsylvania State University, Syracuse University and Wells College.

The fair traditionally draws between 500 and 600 students. They typically speak to colleges about prospective majors, their locations, housing, academic programs, acceptance rates, financial aid and where graduates end up, in terms of careers or graduate schools.

Freestyle: See photography from SUNY Broome students this month at the Bundy

The Bundy Museum is presenting "Freestyle," an exhibit featuring the work of SUNY Broome photography students, Nov. 4 through 28 at the museum, located at 129 Main St. in Binghamton.

An opening reception will be held from 6 to 9 p.m. Nov. 3 in the Bundy's third floor art gallery.

The exhibit features color, black and white, and experimental prints from beginning, intermediate, advanced and thesis photography, including traditional process and digital photographic imaging.

Admission to the Bundy art gallery is always free, and the gallery is open from 11 a.m. to 5 p.m. Tuesday through Saturday.

Global Service Learning in Career Courses: A Thank You to Haiti

November 1, 2017
Featured News

Students in Haiti work on computers.

Students in Haiti work on computers.

As our amazing 2018 Health for Haiti team prepares to head to Haiti in a just a couple short months, we want to acknowledge some other incredible SUNY Broome students who are helping children and adults in Haiti from right here in Binghamton.

SUNY Broome Professor Sandra Wright and her students in the Business Information Technology program have been working together as part of the Bridge to Haiti program to advance computer literacy for adults and children in Haiti. Together, they have not only contributed high quality lessons and necessary equipment, they have made a meaningful connection with students in Haiti. Below you can see a video of students in Haiti thanking Professor Wright and her students for all of their work and help. Under the video you can read Professor Wright's reflection about the project and the impact that it had on her students.

The children in this video live in Cite Soleil, an extremely poor area of Port au Prince. The computer center provided by the Health for Haiti Bridge to Haiti program is giving them exciting opportunities to use technology. Because of donated laptops, equipment provided by Bridge to Haiti, and the lessons provided by Professor Wright and her students, children in Haiti are learning critical new skills and digital literacy.

Global Service Learning in Career Courses: A Thank You to Haiti

by Professor Sandra Wright

"Thank you SUNY Broome! We love you!" What greater joy is there than watching the videos from Cite Soleil, Haiti – the children working hard to learn computer skills, so grateful for what they have been given and unaware of how much they have given us. Bridge to Haiti, a component of SUNY Broome's Health for Haiti Global Service Learning Course, is a computer literacy program that brings equipment, lessons, and guidance to four communities in Haiti. As of January 2017, over 120 computers have been delivered to Haiti, curricula have been shared from the Bridging the Digital Divide Program, and over 800 students have been taught or are in the process of learning basic computer literacy.

The program is growing and expanding to provide computer literacy training to new groups of children and to adults. Through a generous teaching grant, we were able to purchase additional equipment and provide 40 new lessons to Cite Soleil. It is for the equipment and lessons that the children are grateful. However, it is not the children of Haiti that I wish to reflect upon, but the students of four SUNY Broome Business Information Technology (BIT) courses, who took a journey to Haiti without leaving the lab, and returned wiser and kinder and more determined to work toward a more equitable future for us all.

Global service learning begins with the idea that students grow exponentially in their understanding of diversity, equity, and inclusion when they experience firsthand the needs of someone different in race, culture, language, or socioeconomic status, and then use their knowledge, skills and privilege to serve.

For students in BIT courses, this process takes the form of four graduated assignments as part of the Bridge to Haiti program.

The journey for our BIT students began with an initial assignment to research and read about the Bridge to Haiti program, the Health for Haiti programs, technology transfer to third world countries, challenges of understanding cultural needs different than one's own, and importance of diversity, inclusion and equity in the information technology industry. Reading and writing about these topics broadened their perspectives and opened the door to a live conversation with our Haitian teacher, Mr. Elysee.

In the second assignment, students installed the globally recognized communication app, WhatsApp, on their own phones, and came prepared to participate in a group chat with Mr. Elysee to ask questions and listen to the needs of the community. Students came prepared with insightful questions and plenty of patience. The technology wasn't always perfect and the language barriers in translating between English and French Creole were difficult, but the students were open minded and eager to learn all they could. Part of their learning was the experience and understanding of the challenges of global communication even with technology.

The response of students after the WhatsApp session was almost universal. "They are oving." "They have so much faith." "They are so grateful." SUNY Broome students were immediately humbled by the faith, dedication, and optimism of the Haitian people. They were also confronted, many for the first time, with the challenges of sanitation, clean water, food, health and education for Haiti. Students were proud of the work that has been done by SUNY Broome in Haiti and were eager to know how they in turn could help.

Assignment 3 provided this opportunity. Based on what they learned, the students created new lessons for the computer literacy classes. Students took to this assignment eagerly. The teaching grant goal was 10 lessons. Due to the enthusiasm and dedication of the BIT students, 40 lessons were created and delivered to Cite Soleil. The lessons ranged from PowerPoint presentations on computer basics to Excel tutorials on community garden produce revenues. The BIT students put great effort into the lessons they created, motivated by the knowledge that the lesson would be so appreciated in Haiti and so instrumental in educating the next generation, working to break a cycle of poverty for these children.

The final assignment was a reflection on the global service learning experience and on diversity and equity in their own career areas. The student reflections were heartfelt and thoughtful. They reflected on the need for more and deeper understanding of other cultures, of the need to be grateful for the educational opportunities that they are privileged to have, and the challenge of entering career paths in business, health, and information technology where many barriers still exist to achieving a truly diverse, inclusive and equitable workplace.

We often focus on the benefit of global service learning to the communities in which we serve. We don't as often focus on the profound effect that these learning activities have on our own students and community. It is essential that we continue to pair academics in all disciplines with service, and that courses directly related to professions allow students the space to think critically about global issues and challenges of diversity. It is not enough to leave this work to the general education requirements. In bringing these lessons to our career classes, we ensure that students understand the relevance of these issues in their own lives and their own choices.

Thank you Mr. Elysee, thank you children of Haiti, for opening our hearts and minds and teaching us to embrace our world and strive to make it a better place.

Syracuse students visit Criminal Justice and Emergency Services programs

November 1, 2017
Featured News

Four faculty and 32 students (in four classes) from the Syracuse City School District came to campus for a field trip on Oct. 18. The students and faculty were from the Public Service Leadership Academy (PSLA), which is a Career Technical Education-oriented high school. There are 13 career pathways in their high school, and all faculty and students were part of the First Responder Academy as follows:

- Fire-Rescue class faculty: Anthony Jarvis
- Emergency Medical Technician class faculty: Brandi Schaefer
- Law Enforcement class faculty: Major Jamie Bazdaric
- Forensic Science/CSI class faculty: Chris Freeburg

The group arrived around 9:30 a.m. and were given a tour of the campus by EMT/Paramedic Coordinator and CJES Adjunct Instructor Michael Washington. He took the students around campus and walked them into Admissions, the Business Building, the EMT/Paramedic offices and Paramedic lab room (in addition to an overall tour of the campus). The students were then invited to observe Basic Emergency Medical Technician, Introduction to Criminal Justice and Victimology classes. Following the classes, they ate lunch at the cafeteria and headed back to Syracuse around 1 p.m.

Focus on International Students: Leila, student and survivor, yearns to give back

November 1, 2017

Featured News

Globe with a magnifying glass

This is the first in a series of stories on SUNY Broome's international students, who come from all over the globe. The college will celebrate International Week from Nov. 13 through 17. International students will share the cuisines of their homeland at the Dining Hall, and will visit the BC Center to read children's books from their home countries.

Today we meet Leila Ahmed, a refugee from the African nation of Somalia. She asked that we not take her picture.

"What is our *qabiil*, our tribe?" Leila once asked her father.

His answer was swift and sure: "You are Somali."

In a nation about to be torn apart by civil war, that simple statement served as an example of Abdullah Hajji's principles – his love of country, his dedication to his job as chief of police. Decades later and a continent away, Leila Ahmed pulls up a picture of her father on her smartphone. Keen dark eyes peer from the black and white photo, over the ever-crisp uniform that he typically wore – a soldier to the heart, as his own father had been before him.

The soft-spoken Health Science student has the same keen eyes, the same love of family and country although that country is different now, on the other side of a vast ocean.

Leila Ahmed and her siblings grew up as children of privilege, lacking for nothing – most of the time. Her mother, divorced from her father, lived in an outlying village. During the summer, Leila and her siblings would visit and be treated as any of the village's children – finishing chores before breakfast, milking cows, pounding grain into flour, and learning how to run and leap onto high branches.

Those visits stopped one summer, after her father objected to having his children experience hunger and hard labor, even on a temporary basis – but those country lessons ultimately saved Leila's life, in a way that none of the family could have imagined.

The escape

The sound of gunfire woke her in the night, and she saw a guard attempting to peek in her window in the family's Mogadishu mansion. She ran to her father, and the family fled the house through underground tunnels, barefoot and in their nightclothes, grabbing only some money to ease their passage.

They fled to their father's office, not realizing that the guards were of the same tribe as the rebels – and on their side. Leila and the other women headed to their mother's village, but her father stayed behind and was caught by the rebels.

The men that Abdullah had jailed as police chief had been set free – and armed. They promised a long and painful public execution, but a twist of fate saved the police chief's life. In the deep night, a sympathetic guard gave him the opportunity to escape – although Abdullah, fearing a trap, refused the first two times. Finally, knowing his death was closing in, he fled into the night as the rebels slept – barefoot, like his children, and without his accustomed uniform.

"He came to us. His feet were swollen and bloody," Ahmed remembered of her father's arrival in the distant village where the family stayed hidden. "We jumped on him and kissed him."

But someone eventually told the rebels the family's location, and they were caught and held in terrible conditions. Once again, they escaped – knowing that no safety remained for them in their homeland.

They pushed on under cover of darkness, seeking to evade their pursuers as they walked ever onward. Sometimes villagers assisted, offering milk and bread for the journey; the refugees drank the milk and pocketed the bread for some days hence, performing the stark arithmetic that underlies endurance – *I can travel three days without food. If I save this bread, how long can I last, how far can I go?*

Those who were unable to keep going and lagged behind met even worse suffering, and death. Leila credits her mother's early lessons in the country for toughening her, enabling her to endure the unendurable.

"You become a soldier. You don't feel anything but to save your own life," Ahmed said of those dark days.

They made it to the border, using the last of their money to find passage to Yemen on the other side of the Red Sea. The family then headed to Nairobi in Kenya, where there was a refugee camp with food, shelter, clothes – and above all, safety.

The family waited there for five years. Leila's ex-husband took their children to the United Kingdom, where they are doing well. She remarried in the camp and eventually ended up relocating with her infant daughter in Upstate New York, joined by members of her family.

Her father wasn't among them; he had died in the refugee camp.

Transition

The language of her adopted country proved difficult to learn, but Leila Ahmed persisted, attending classes at the American Civic Association. Starting over again – quite literally with the alphabet – proved daunting.

Back in Somalia, Leila's father had wanted her to be educated and able to support herself, and she earned college degrees in biology and chemistry. In the United States, she learned that her credits and her degrees didn't transfer. A  years old, she feared that the doors to opportunity and education were forever barred by the fact of her age.

"All my education had become zero," Ahmed remembered. "First, I felt bad and discouraged and I give up. My heart was broken."

Mogadishu in 1980, by Maxamad. Image via Wikimedia Commons.

The location of Somalia. Image from Wikimedia Commons

That experience provided the seed of a new vocation, a new calling: to use the remainder of her own life to provide care to those in need.

After her mother passed away, Leila eventually returned to work, training as a nurse's aide at a local nursing home while her daughter finished high school. Her daughter then offered her a deal: Go back to school, and she would help support her mother so that both of them could achieve their dreams. Leila's siblings also offered their support.

Ahmed remembered her daughter's words: "You put me in school, you paid your time for us. It's your time now."

At 50 years old, Leila Ahmed is a student once more, taking classes that will ultimately prepare her to transfer into SUNY Broome's competitive nursing program.

"I'm always feeling old, but otherwise I'm okay. I'm getting As, and I'm thanking God for that," she said with a smile.

Her daughter is now a student at Binghamton University, studying to become a physician. Her daughter's long-term goal: To work for an agency such as the Red Cross, saving lives affected by violence. It's in memory perhaps of her uncle, Leila's brother, who perished of his wounds in the war.

Leila, too, plans to pursue a career in healthcare as a way to give back to the land that offered her shelter and opportunity. She has years of schooling ahead of her, but is firm in her desire to help. No matter how long she works as a nurse, it will all be worth it, she said.

"We got shelter and food and healthcare. We get good people to help us," Leila Ahmed reflected on her experience in the United States. "I want to pay that back. This is my land and this is your land."

Her teacher at the American Civic Association saw her despair and reached out. With broken English, Ahmed tried to explain her situation: She was old, spent, done, her options limited.

"No," her teacher said. "You're young. You can do whatever you want."

And slowly, Leila came to realize that truth – and her opportunities blossomed outward.

'It's your time now.'

At her English as a Second Language teacher's urging, she pursued the certification she needed to become a teacher's aide – even though her grasp of the language was still unsteady. To study, her brother translated the texts into Somali, which she then learned and mastered. She went on to work at a local elementary school, a job she loved.

After five years, however, Ahmed's mother fell ill and – with the support of her siblings – she quit her job to care for her. During her mother's trips to the hospital, Leila noticed the nurses who provided such expert and compassionate care, and felt deeply grateful for their help.

She remembers one nurse in particular at Lourdes Hospital, who adjusted her mother in bed without prompting the slightest pain. It inspired awe: that ethic of care and compassion, and the professional who brought comfort and peace amid a trying time.

"She's holding her like a mother who holds her baby," Ahmed recalled.

SUNY Broome alumna wins regional award for Continuing Education Student

November 1, 2017
Featured News

SUNY Broome alumna Jennifer Garnar is the Region West winner for the Charles A. Burns Outstanding Adult Continuing Education Student Award.

The Regional & Charles A. Burns Outstanding Adult Continuing Education Student awards recognize adult students from the three CEANY Regions (East, West, South) who have achieved excellence by demonstrating persistence, drive and success in overcoming obstacles to achieve their educational goals.

Garnar graduated in May 2017 with an Associate's Degree in Music Therapy.

For years, she suffered from heroin addiction, a habit broken only by a felony burglary conviction and months in the Broome County Jail. Now more than six years sober, the married mother of two has earned her first college degree.

[Click here to read more about Jennifer Garnar and her journey.](#)

Garnar will be acknowledged at the CEANY conference in November and receive a check for \$1,000.

From left to right: Leslie Tallmadge, Kristina Jackson, Megan MarkAnthony, Kanako Suzuki, Danielle DiSaverio, Emily Bors and Darius Fuller

accompanied their students to the NATS event and spent the day judging other categories.

Applied Music students started the semester off and running with impressive performances at two Upstate SUNY schools in October. On October 15, 2017, Brian Tyneway performed at The Classical Guitar Society of Upstate NY's Collegiate Recital held at SUNY Oneonta. Brian was the only community college student on the program, which also featured students from schools such as Potsdam's Crane School of Music, Mannes College of Music and SUNY Oneonta. Brian is from the Applied Guitar Studio of Paul Sweeny.

On October 28, 2017, seven Applied Voice students from the studios of Brenda Dawe and Peter Sicilian traveled to SUNY Oswego to compete at the Chapter auditions of the National Association of Teachers of Singing. SUNY Broome was the only community college represented and our students competed against schools such as Ithaca College, Eastman School of Music, SUNY Fredonia and Potsdam's the Crane School of Music, among many others. Six out of seven of our students advanced to the semi-final round and Kanako Suzuki (student of Peter Sicilian) placed second in Lower Musical Theater — Women and Darius Fuller (student of Peter Sicilian) placed second in Lower Musical Theater — Men.

Calling All Adventurers: London and Literature course brings writing to life

November 3, 2017

Buzz

Study British literature in Spring 2018 — and see it come to life during an eight-day trip to London!

The influence of Great Britain on American culture is deep and wide. In LIT 296: London and Literature, we will explore major English works and the city and culture that is depicted in them. From Chaucer to Virginia Woolf, from Macbeth to “A Christmas Carol” to Harry Potter, we will engage in a journey of exploration.

The course will meet Tuesdays from 1:30 to 2:45, p.m. during the semester, followed by an eight-day study tour in London, England. Additional fees are associated with international travel. This is a Writing Emphasis course section, and students must complete ENG 110 before registering.

Interested? Contact Dr. Shepard or Dr. Brand at 778-5480, or fill out an application at www.sunybroome.edu/londonandliterature.

Nov. 9 event: Indy Media founder to discuss media literacy, journalism's future

November 5, 2017

Buzz

Join us from 9:30 to 10:30 a.m. November 9 for a discussion with media critic Jeff Cohen, founding director of the Park Center for Independent Media and founder of Fairness & Accuracy In Reporting (FAIR), via Skype on "Media Literacy, Bias and the Future of Independent Journalism." The event takes place in Wales 203B and will be moderated by Communications Instructor Nick Bongiorno.

SUNY Broome Theater students are rehearsing 'Fools': Performances on Nov. 16, 17

November 5, 2017

Buzz

SUNY Broome students are busily rehearsing the theater production for this semester – the lighthearted comedy “Fools” by Neil Simon. The play includes a folksy love story inside a fairy tale plot about an old curse put on a Russian village. The curse is eventually removed by a young, idealistic school teacher. The show contains every kind of comedy from old-time vaudeville jokes to farce, as well as colorful characters and plenty of suspense as to how it’s all going to turn out. It will be a lot of laughs!

Wood.

Cast members practicing with theater director Katherine Bacon include: Michael Brown, Ryan Brunick, Antonia Lobacz, Sophie Miller, David Perfetti, Tiffany Poborsky, Rachail Pomerlee, Claudia Sacco, Shantae Sterling and Ricky

Performances are at 7:30 p.m. Thursday and Friday, Nov. 16 and 17, in the Angelo Zuccolo Theatre in the Student Center. Tickets are \$10 for general public and \$5 for students. Reservations can be made beginning on Nov. 12 by calling 778-5191.

The Monday Poem: 'A Song for Freedom' by Charlotte Perkins Gilman

November 5, 2017

Buzz

Suffragists parade down Fifth Avenue, 1917. Advocates march in October 1917, displaying placards containing the signatures of more than one million New York women demanding the vote. The New York Times Photo Archives

The Monday Poem is brought to you by Professor Jim Gormley of the English Department. Enjoy!

This poem is a paean of praise for the women's suffrage movement. It was written by Charlotte Perkins Gilman. November 6 is the anniversary of women gaining the vote in New York state.

A Song for Freedom

Day of hope and day of glory! After slavery and woe,
Comes the dawn of woman's freedom, and the light shall grow and grow
Until every man and woman equal liberty shall know,
In Freedom marching on!

Woman's right is woman's duty! For our share in life we call! Our will it is not weakened and our power it is not small. We are half of every nation! We are mothers of them all!

In Wisdom marching on!

Not for self but larger service has our cry for freedom grown, There is crime, disease and warfare in a world of men alone, In the name of love we're rising now to serve and save our own,

As Peace comes marching on!

By every sweet and tender tie around our heartstrings curled, In the cause of nobler motherhood is woman's flag unfurled, Till every child shall know the joy and peace of mother's world—

As Love comes marching on!

We will help to make a pruning hook of every outgrown sword, We will help to knit the nations in continuing accord, In humanity made perfect is the glory of the Lord,

As His world goes marching on!

Suffragists parade down Fifth Avenue, 1917.

Advocates march in October 1917, displaying placards containing the signatures of more than one million New York women demanding the vote.

Fall food drive to aid SUNY Broome students in need

November 6, 2017

Buzz

Thanksgiving logo with turkey and fall leaves

Gobble, gobble — give! Medical Assisting Students are asking you to join them in their effort to help stop hunger on our SUNY Broome campus.

Every SUNY Broome student should have a Thanksgiving dinner. A special collection will be conducted between Nov. 6 and 20 to provide SUNY Broome students with holiday food items. From Nov. 21 through Dec. 11, we will continue to collect items to stock the SUNY Broome Food Pantry for the winter months.

Thanksgiving items: boxed stuffing, instant potatoes, macaroni & cheese, canned yams, fruits, vegetables, gravy, cranberry sauce, biscuit/muffin mixes, canned/boxed desserts, store gift cards to purchase turkey/ham/entree

Other Items: Canned fruits, veggies, & meats (stews, chicken, tuna), soups, boxed dried food (stuffing, pasta, rice, potatoes, macaroni & cheese, cereals, instant meals), cookies, crackers, granola bars, peanut butter, jelly, cake/muffin/biscuit mixes, personal hygiene supplies, and paper towels, napkins, toilet paper

Look for collection bins in: Decker Health Science Office (217), Applied Technology, Natural Science Center, Titchener (210), Business (Main floor), the Counseling Center (SS 210), and the Library

Want to arrange for a pick up/drop off? Want to donate money/a gift card? Please contact: Professor Kim McLain Phone: 778-5258 Email: mclainkb@sunybroome.edu

From Addiction to Recovery and Beyond: A True Story on Nov. 16

November 6, 2017

Buzz

Join SUNY Broome alumna Jennifer Garnar for “From Addiction to Recovery and Beyond: A True Story” from 11 to 11:50 a.m. Nov. 16 in Decker 201. Jennifer will tell her story of heroin addiction and recovery.

This event is brought to you by Counseling Services. Questions? Contact Melissa Martin in SS-210 or by calling 778-5210.

Nov. 30 event: 'Understanding Media' in 2017

November 6, 2017

Buzz

Marshall McLuhan

Marshall McLuhan

The work of pioneering media theorist Marshall McLuhan is becoming increasingly relevant to our contemporary, interconnected world. Having coined the expressions “The Media is the Message” and the “Global Village,” McLuhan is also credited with predicting the Worldwide Web almost 30 years before it was invented and his work is receiving a great amount of renewed interest in both academia and the mainstream.

Join us from 12 to 1:15 p.m. Thursday, Nov. 30, in Titchener 101 for a rare opportunity to discuss McLuhan’s seminal work, “Understanding Media,” with McLuhan’s son, internationally-known lecturer Dr. Eric McLuhan in addition to McLuhan’s grandson, media educator Andrew McLuhan, via Skype. The event will be moderated by Communications Instructor Nick Bongiorno.

In the Community: Join the Women's Suffrage Book Club!

November 7, 2017

Buzz

Women march for voting rights in New York State.

This fall and winter, join the Women's Suffrage Book Club, a reading and discussion program celebrating the centennial of women's voting rights in New York State!

Women march for voting rights in New York State.

Four selected texts will serve as catalysts for discussions on cultural understanding, civic engagement and personal reflection. Participants are encouraged to share their various perspectives on the texts.

Upcoming books and discussions include:

- 12 p.m. Nov. 19: *A Woman's Crusade: Alice Paul and the Battle for the Ballot*
- 6 p.m. Dec. 15: *African American Women in the Struggle for the Vote, 1850-1920*
- 12 p.m. Jan. 13: *Sex Wars: A novel of Gilded Age New York*

The Book Club will be held in the Visitor Center Theater and Melyssa Wrisley, an adjunct instructor in SUNY Broome's the History, Philosophy and Social Sciences Department, will be the facilitator. There is a minimal fee of \$5 per session, free for Roberson members. Book rentals are available through Roberson.

Participants who want to borrow any of the books through Roberson can provide a \$15 cash deposit per book, which will be refunded when the book is returned. To register, please call or visit the Museum.

This adult reading and discussion program is provided by a grant through Humanities New York.

Help end campus hunger: Donate to the Food for Thought pantry

November 7, 2017

Buzz

The logo for the Food for Thought campus food pantry

Help address hunger in our campus community! Donate non-perishable food items to the Food for Thought pantry, run by the Student Assembly.

The pantry helps students in need. Donations being sought include canned food, such as:

- Vegetables
- Soups
- Beef, Chicken, Tuna, Sardine, Pork
- Mixed Vegetable Soups, Mixed Beans/Beef, etc.
- Mixed fruits, any kind
- Tomato Sauce/ Pasta Sauce

Dried and packaged food is also needed, such as:

- Noodles
- Fruits
- Pasta
- Rice
- Cereal
- Oatmeal
- Dried Meal Boxes

The pantry also distributes hygiene products, and accepts donations of:

- Soap Bars
- Shampoo, Conditioners, Body Wash
- Tooth brushes, tooth paste
- Deodorant
- Feminine Hygiene Products (Tampons, Pads)
- Hand Sanitizers
- Razor Blades (ran out of them)
- Shaving creams

Make your donation today by visiting the Student Assembly office on the first floor of the Old Science Building.

Your Voice Matters: Student forum on Nov. 9

November 7, 2017

Buzz

Logo for Your Voice Matters -- for students only

Your Voice Matters will be held from 11 a.m. to noon Thursday, Nov. 9, in Decker 201.

This is a forum exclusively for students to express concerns and make suggestions about major issues that affect our campus. No administrators, faculty or staff will be present, and participants can remain anonymous. Issues and concerns at the forum will be forwarded as appropriate for consideration.

The forum will be moderated by members of the Student Assembly.

Meet a diverse panel of alumni from SUNY Broome's Business Information Technology programs at 11 a.m. Nov. 9 in Business Building Room 224.

Learn about career options and opportunities from these industry experts. Are these high growth career options right for you? What about bias in the information technology industry? How have these alumni navigated the challenges and found success in their chosen fields? Find out at our alumni panel discussion!

Panelists:

- Ciara Cable, Programmer Analyst /Adjunct Instructor at SUNY Broome
- Kelly Clark, Typist at SUNY Broome
- John Covert, Technical Assistant/ARO Technology Specialist at SUNY Broome
- Theresa Hogan, Software Developer at Dynamics Inc.
- Patricia Potochniak, Remote DBA at SUNY SICAS Center
- Roilan Salinas, UI/UX Engineer at Mic

Focus on International Students: Elnur strives for academic success and maturity

November 7, 2017
Featured News

This is the second in a series of stories on SUNY Broome's international students, who come from all over the globe. The college will celebrate International Week from Nov. 13 through 17. International students will share the cuisines of their homeland at the Dining Hall, and will visit the BC Center to read children's books from their home countries.

Today we meet Elnur Adl Zarabi, an Engineering Science major from Denmark by way of Azerbaijan.

"Where are you from?"

For many Americans, it's a fraught question because it implies that they are something other, that they come from *elsewhere* and don't belong.

Elnur Adl Zarabi meant no offense when he asked his American peers that question, but he was surprised as to the answer. Whatever they looked like or language they spoke, they answered: "I am American." With his English touched by a slight accent, Zarabi surmised that he, too, could claim to be American – and no one

would question that claim.

As an international student, that was a bit hard to grasp at first.

"Here, I'm considered a white person. In Europe, I would be looked at as an immigrant," explained Zarabi, an Engineering Science major now in his second year at SUNY Broome.

He was born in Copenhagen, Denmark – "our mini-Manhattan," he joked – to parents from Azerbaijan, a country formerly part of the Soviet Union located on the shores of the Caspian Sea. His mother comes from the Russian-speaking part of the country, and his father from the Iranian portion; the country shares borders with both.

Despite being born and raised in Denmark, he isn't looked upon as Danish by his peers. But here at SUNY Broome, he's simply part of the campus community, a high-achieving student in a tough major and eager to succeed.

Elnur speaks English fluently, thanks to a private English-language school he attended before high school. He first learned about SUNY Broome when he and his father visited a family friend in Johnson City, who encouraged Elnur to consider the college as an option.

Zarabi worked in the moving business for a few years after graduating high school, and then helped his mother open a florist shop. When it was time to consider college, he opted for the school he once saw on the other side of the ocean.

Why not college in Denmark, which is famously free? Zarabi said he found higher education in the United States to be tougher and more competitive, with more exams.

"I get more out of it. If I don't do my homework, I will not pass the class," he explained. "I'm an overachiever; that's what my professors call me. I don't like low grades."

Adjustment to college life had its own challenges. Back at home, he lived with his parents. In the United States, he lives in his own apartment – with all the responsibilities that come with self-sufficiency, from making food and getting up on time for class, to acquiring car insurance. In the early days, he sometimes forgot to eat, but he's getting better at taking care of himself, he said.

Going away to college made him more mature on other fronts, too. Initially quite shy, he found guidance from Susan Wellington, Assistant Director of International Admissions, in navigating his American experience.

"It has opened me up a lot, coming here. Many good things have come out of it," he said.

His studies keep him busy, and he's on campus from 8 a.m. to 5 p.m. After school, he grabs a workout at the gym, catches a movie or sleeps. Weekends are time to catch up with friends, or play video games – a life pattern that many of his American peers can appreciate.

Looking ahead, he hopes to transfer to Texas Tech University to major in petroleum engineering, with a focus on offshore operations.

There are some things he wish he knew before he came to SUNY Broome as an international student, he mused. Such as: speed limits are strictly enforced. He learned that lesson with the help of some traffic tickets.

"I have a car and I have heavy feet sometimes," he said a little ruefully.

Cultural Competence In Healthcare Poster Presentations on Nov. 8

November 7, 2017

Buzz

An image of a physical therapist assistant working with a patient

Senior Physical Therapist Assistant students will be presenting their Cultural Competence in Healthcare poster boards to faculty, staff and students from 9:15 to 11:30 a.m. Nov. 8 in the Decker atrium.

The students have explored a wide variety of cultures, including but not limited to the Amish, Japanese, Hmong, Korean and Chinese. The boards contain information about each cultures customs, healthcare beliefs and information that will foster improved cross-cultural communication and interventions in a

professional/healthcare setting.

Please come out and support our senior PTA students' hard work!

Eat Global: International Week at the Dining Hall from Nov. 13 through 17

November 9, 2017

Buzz

An image of grains on the plate in the shape of the seven continents

American Dining Creations is proud to partner with the International Students Organization to feature an International Cuisine Week from Nov. 13 through 17.

The Dining Hall will feature a different meal each day at the Global Eatery station, highlighting indigenous dishes from different regions of the world. International students will be working directly with culinary staff to plan, prepare, cook and serve entrees and sides from their homeland. The students have supplied the recipes and will help the staff create the most authentic representation of the cuisine they've grown up with to share with the student body, faculty and staff.

We hope to see you all in the café next week to get a taste of some of these great dishes, and to help the ISO share their national pride and educate their fellow students on some of their favorite foods!

- Monday: Africa, featuring Mullah, Chapatti Basboosa, Bunuelos and Malauax
- Tuesday: Mediterranean, featuring Macaronada, Polenta with Mushroom Sauce, Sautéed Broccoli Rabe
- Wednesday: Caribbean, featuring Fish Curry, Rice & Beans, Fried Plantains
- Thursday: Asia, featuring Vietnamese Spring Rolls, Fried Rice, Chinese Noodles, Dumplings
- Friday: Mexico, featuring Pozole Rojo & Gorditas

Join the conversation: Nov. 16 public deliberation on ‘Equality and Justice for All’

November 10, 2017

Buzz

Come and engage in a public deliberation on “Equality and Justice for All” from 5 to 7 p.m. Thursday, Nov. 16, in Wales 203B.

The deliberation process has participants engage with tough ideas by discussing various pros and cons rather than simply debating a point to “win.” Work together toward creating potential solutions.

Honoring those who serve: SUNY Broome holds Veterans Day ceremony

November 10, 2017
Featured News

SUNY Broome student Danielle DiSaverio sings the national anthem

SUNY Broome President Kevin E. Drumm at the Nov. 10 Veterans Day ceremony.

people return, people don't really notice them," Deabreu said of the ceremony. "This is a good way to remember them."

Veterans Day originally began as Armistice Day, marking the end of World War I, Dr. Drumm related. The armistice was signed during the eleventh hour of the eleventh day of the eleventh month in 1918, which is why Veterans Day – established in 1954 – is celebrated on that date.

State Sen. Fred Akshar speaks at the Nov. 10 Veterans Day ceremony.

veterans for giving us the privilege of saluting this flag and singing the national anthem."

Veterans and community college

Why does a community college hold a Veterans Day ceremony every year? On one hand, veterans sacrificed life and limb to secure our freedoms, including the freedom to pursue higher education, Dr. Drumm noted.

Garesha Deabreu will have to miss class next week, but it's for a good cause.

The criminal justice major has been in the Army Reserve for the past five years. Professors have accommodated her Reserve training, although that means she usually has to take tests and hand in assignments a little earlier than her peers. It's worth it, though.

The Pennsylvania native attended SUNY Broome's annual Veterans Day ceremony Nov. 10 in the Darwin R. Wales Center. Snow and fierce winds moved the event into Wales lobby from its planned outdoors location, although the Broome County Veterans Memorial Color Guard still made their procession and elected officials voiced their respect for veterans, along with SUNY Broome President Kevin E. Drumm.

"I'm glad that it shed light on remembering the veterans. As they said, once

SUNY Broome student Danielle DiSaverio sings the national anthem

Since Veterans Day falls on a Saturday this year, the college opted to hold its ceremony on Nov. 10 – another important milestone in U.S. military history: the birthday of the U.S. Marine Corps. The Marine Corps traces its roots back to the American Revolution, when the Continental Marines were formed in 1775, President Drumm noted.

"Whether you're in the service now or decades ago, whether you served here in the United States or on the other side of the world, we offer you our gratitude, our appreciation and our utmost respect," he said.

Watching tragic events unfold across the nightly news, it's all too easy to take a dark view of our culture, noted state Senator Fred Akshar, a SUNY Broome alumnus. But such tragedies aren't the measure of who we are as a people.

"We are a community and a nation that honors our heroes," he said.

Assemblyman Cliff Crouch recently visited the memorial in Pearl Harbor, Hawaii, that commemorates the attack that drew the United States into World War II. It drove home the importance of those events, and of the men and women who were a part of them.

"It really comes close to my heart," Crouch said. "Thank you to all the

Student Activities distributed green lightbulbs as part of the Greenlight A Vet campaign.

What you may not realize: Veterans led to the creation of the community college system itself, established just after World War II. Once the province of wealthy young men, college became accessible to much of the American public

Assemblyman Cliff Crouch speaks at the Veterans Day ceremony

thanks to the G.I. Bill.

“But in order to go to college, those veterans on the G.I. Bill needed a public college system to accommodate their desire to learn,” Dr. Drumm said.

That’s why, just after the war ended, New York State developed five Institutes of Applied Arts and Sciences, which later became the core of the new community college system. Binghamton was among those five, the very first community colleges in the state.

Veterans continue to be an integral part of our campus community, and have a space of their own in the Veterans Resource Center, located in the Student Services Building. This center gives student veterans the opportunity to focus on academics or socialize with each other in a safe and supportive space.

At the end of the ceremony, Student Activities distributed green lightbulbs as part of the Greenlight A Vet campaign, which seeks to spark a national conversation and highlight veterans as valued members of the community. By turning on a green light, participants seek to raise awareness of veterans in the community.

Deabreu and other active and retired service members were also treated to a reception afterward. She said she joined the military ultimately for the experience.

“A lot of people said I couldn’t do it, but I kind of wanted to prove them wrong,” she said.

She plans on re-enlisting next year for another six years, and putting her criminal justice degree to use as a military police officer. Ultimately, the Student Village resident hopes to transfer to Marywood University or Scranton University back in her home state for a bachelor’s degree in sociology, followed by law school.

While she has long had interest in the law, her military experience helped her form her goals.

“I had spoken to a major in the Army and she inspired me in taking that turn,” she said.

Garesha Deabreu

Job opportunities: Bandalier representative to be on campus Nov. 16

November 10, 2017

Buzz

A representative from Bandalier will be in AT-200 from 3 to 4 p.m. Thursday, Nov. 16, to host an information session for students seeking a unique career path. (Part-time and full-time opportunities are available). This is a wonderful opportunity to network and potentially land your dream job! Log into your Purple Briefcase account ahead of the information session to view available jobs.

Forging ahead: BIT alumni share their career paths and reflections

November 10, 2017

Featured News

Professor Sandy Wright introduces a panel of BIT alumni.

While all the panelists earned degrees from SUNY Broome's Business Information Technology programs, their paths took them in different directions.

Some stayed at their alma mater, including Marketing & Communications programmer analyst Ciara Cable and technical assistant John Covert, who works as a technology specialist in the college's Accessibility Resources Office.

Others went further afield: Roilan Salinas, a data engineer for New York City-based Mic.com, although he lives here in Binghamton. Theresa Hogan, a software developer at Dynamics Inc. in Pittsburgh, who got her start at Willow Run Foods locally. Patricia Potochniak, a remote database and applications administrator for the SUNY Student Information and Campus Administrative Systems (SICAS) Center.

No matter their trajectory, they all attributed their success to a few basic concepts: working hard and mastering needed skills, and fostering connections with others in their field from the very beginning.

"Most of these students started on campus with opportunities that led to a career," Professor Sandy Wright told a packed classroom of students who came to hear the Nov. 9 panel discussion.

Connections count

Every member of the alumni panel stressed the importance of connections – with professors who can lead you to job and internship opportunities, and through work study jobs that lead to even better job options down the road.

"Never underestimate who you know and how they will be able to help you. Every position I had is because I knew somebody who knew somebody," said Potochniak, who worked in IT fields for many years before obtaining her Associate's degree, which she needed to advance her career.

Those connections can occur in the classroom, but they can also pop up in unexpected places.

Salinas originally began at SUNY Broome as a Business student, with no intention of going into a technology field. An elective course changed his trajectory. "I took an HTML course and I fell in love with it," said Salinas, whose current job involves both front-end and back-end programming.

He made important connections through a Javascript chatroom online. One of the participants, whom he had never met, noticed his dedication to learning – and alerted him to a job opportunity in his field.

"I was six months away from graduation, and there I was driving down for an interview based on a person I never met," he said.

Countering 'bro' culture

IT has the reputation for being a boys' club, although the field has diversified through the years. When Potochniak began working in the field 30 years ago, she was the first woman in her office and was occasionally asked to dust file cabinets and answer telephones. Today, her manager is a woman, and her workplace has people of diverse ages and genders.

Sexism still exists, but it can be subtle, she said. Hogan found that to be the case when she first began interviewing for positions in Pennsylvania, and found that her male competition got the nod. Ultimately, her search panned out and she's still getting job offers today.

Salinas advised job-seekers to pay attention to the language in job descriptions, and be wary of places seeking a "rock star." That usually denotes a more macho "bro" culture, which isn't to everyone's taste – Roilan's included.

There are other forms of diversity, too, that deserve note. Age is one; Cable, as a young woman, said she often had to prove her skills to the doubters. Hogan, as an older person, had to prove that her skills were up-to-date – current, in , because she earned her degree relatively recently. People of every age can contribute to the workplace and should be treated as such, panelists stressed.

BIT alumni speak about their job experiences on Nov. 9.

“You can gain the knowledge and the skills and the connections here at SUNY Broome to launch you into your career,” Professor Wright said.

“This is the first workplace I ever disclosed that I have a documented learning disability,” Covert said. “SUNY Broome has been absolutely wonderful. I have everything I need to do my job day in and day out.”

Covert’s job is, in fact, to ensure that SUNY Broome students with disabilities have the same experience. Not every workplace, however, is so accommodating. Previously a machinist, Covert said his prior employer probably would have found a reason to fire him if he had disclosed his disability.

Getting started

One way to get started on your own trajectory: Stop by the Applied Learning & Career Center on the first floor of the Applied Technologies Building. They offer help with interview preparation and resume building, and can help connect you with jobs and internships, noted ALCC Career Coach Jeannie Kumpon.

Other helpful advice: Stay dedicated to your classroom work, and don’t be afraid to ask for help or advice when you need it. Keep in touch with professors, family and friends, and talk about your career efforts.

The Monday Poem: 'Limericks' by Gary Johnson

November 12, 2017

Buzz

The Monday Poem is brought to you by Professor Jim Gormley of the English Department. Enjoy!

Limericks

Gary Johnson

A young man climbed up Mount Rainier
On a day that was perfectly clear
And through his telescope
He watched a big dope
Steal his bicycle and disappear.

...

There was a young lady of Newark
Who rode a train daily to work
Then returned to the station
For the same transportation
At six o'clock when she was through work.

...

An old Lutheran near Owatonna
Raised ten acres of marijuana.
It went up in a blaze
And for seventeen days
He had visions of the Blessed Madonna.

...

A young fellow left Puget Sound
To move to Spokane and he found
That he hated blue sky
And the air was too dry
And the coffee improperly ground.

Limericks

The form appeared in England in the early years of the 18th century. It was popularized by Edward Lear in the 19th century although he did not use the term. Gershon Legman, who compiled the largest and most scholarly anthology, held that the true limerick as a folk form is always obscene, and cites similar opinions by and George Bernard Shaw, describing the clean limerick as a "periodic fad and object of magazine contests, rarely rising above mediocrity". From a folkloric point of view, the form is essentially transgressive; violation of taboo is part of its function.

The students have supplied the recipes and will help the staff create the most authentic representation of the cuisine they've grown up with to share with the student body, faculty and staff.

We hope to see you all in the café next week to get a taste of some of these great dishes, and to help the ISO share their national pride and educate their fellow students on some of their favorite foods!

- Monday: Africa, featuring Mullah, Chapatti Basboosa, Bunuelos and Malauax
- Tuesday: Mediterranean, featuring Macaronada, Polenta with Mushroom Sauce, Sautéed Broccoli Rabe
- Wednesday: Caribbean, featuring Fish Curry, Rice & Beans, Fried Plantains
- Thursday: Asia, featuring Vietnamese Spring Rolls, Fried Rice, Chinese Noodles, Dumplings
- Friday: Mexico, featuring Pozole Rojo & Gorditas

Focus on International Students: Win, future doctor – and an aspiring ‘American Ninja Warrior’

November 12, 2017

Featured News

Thắng Nguyễn climbs a tree on campus

Thắng Nguyễn climbs a tree on campus

passion for both running and obstacle courses, and a grueling training schedule that he truly enjoys. Feeling under the weather? A run will fix you up, along with drinking hot water and taking plenty of Vitamin C, he said. And he should know: That's the regime he did two days before this interview, and he was doing fine – fine enough, in fact, to climb a tree for the photo shoot.

"I want to be a doctor but I don't want to take medicine," he said with a smile.

Win at the OCR World Championships

and he's thinking about training for a 24-hour obstacle course, maybe next year.

Yes, **24 hours**. Competitors run and do a circuit of obstacles for an entire day and night, and the winner is the one who went the farthest, Win explained. A 2016 winner completed 105 miles that way.

And yes, he did apply to participate in the televised American Ninja Warrior competi 🥋 He hasn't heard back yet.

"That's my dream. I hope they call me," he said.

This is the fourth in a series of stories on SUNY Broome's international students, who come from all over the globe. The college will celebrate International Week from Nov. 13 through 17. International students will share the cuisines of their homeland at the Dining Hall, and will visit the BC Center to read children's books from their home countries.

Today we meet Thang Nguyễn, known as Win, a Health Studies student from Vietnam with a truly incredible hobby.

Thang Nguyễn has some definite goals for his future: transfer to the University at Buffalo, ultimately become a family physician. And somewhere along the way, become an American Ninja Warrior.

The Health Sciences major, who goes by the name Win, has a

Win has surmounted a different

Thắng Nguyễn competing on a flaming obstacle course

obstacle course, too. From central Vietnam, he moved to Binghamton with his mother, brother and sister while his father and older brother stayed behind. At the age of 16, he found himself as a student in Binghamton High School – knowing no English, and trying to make the most out of his opportunities here.

He worked hard, translating homework assignments into Vietnamese and then back into English, an effort that took a lot of time. To make friends and master the language, his teachers suggested he join a sports team; he chose track and field.

While he loves to run – he typically logs 5 to 8 miles a day, more when he's training for longer races – he needed something more. Perhaps it dates back to his youth in Vietnam, where he would climb palm trees to get coconuts. Perhaps it's a desire to strengthen a weak left hand, injured when he was a small child trying to leap onto a pull-up bar.

He's participated in Obstacle Course Racing (OCR) events, including world championships that drew competitors from 65 countries. He's done a Spartan Race,

Obstacle course racing relies on many different muscle groups, and Win has created his own workout: Running with weights, rock climbing for upper body strength and a regimen of 50 muscle-ups, 50 pull-ups and 100 pushups. During the weekends, he trains at the Newbsanity course in Castle Creek.

Win competes at an obstacle course

This probably sounds torturous, but it's not to Win.

"I do the training on the side. For me, that's my fun time," he explained. "I love it."

When he's not training, Win participates in campus life. He's the secretary and treasurer for the International Student Organization, and also represents students on the college's International Advisory Board. He's taken part in Toastmasters as well, although he doesn't have time this semester for it; maybe in the spring, he said.

In the classroom, he finds inspiration in science – and not so much in essay-writing. English can still be a bit of a struggle.

"I can spend the whole day doing chemistry," he said.

Rock climbing is part of Win's regular exercise routine

Believe it or not, Win can stand still, too!

Save the Date: Innovation Celebration at the Incubator on Dec. 1

November 13, 2017

Buzz

You're invited to a celebration of innovation at SUNY Broome's Collaboration Lab on First Friday, Dec. 1, in downtown Binghamton!

The Co-Lab is located on the top floor of the Koffman Southern Tier Incubator in downtown Binghamton, at the corner of Hawley and Carroll streets. Its aim is to support student entrepreneurship, and the space is equipped to best inspire innovative brainstorming, collaboration and the launch of outcome-oriented projects and services.

Join us for a **10 a.m. press conference** highlighting the Co-Lab and the opportunities it fosters. **From 6 to 9 p.m.**, visit the Co-Lab for First Friday exhibits and presentations featuring the work of SUNY Broome students, and community entrepreneurs who got their start through Continuing Education's Entrepreneurial Assistance Program. Refreshments will be served during the First Friday event.

Parking is available in the incubator lot.

On-campus construction activities for the week of Nov. 13

November 13, 2017

Buzz

Looking for information specific to the renovation of the Mechanical Building? We now have a dedicated website. [Click here](#) periodically for ongoing updates to the project, including the weekly construction update. As always, make sure to follow all signage and safety precautions in affected areas.

During the week of Nov. 13:

- Placement of EDPM (rubber membrane) will begin in the old Mechanical Building crawl spaces.
- Excavation and trenching for the permanent power run between the Business Building and the New Calice Advanced Manufacturing Center will begin.
- Overhead rough-ins for electrical will continue on the first floor.
- Framing of the new walls in the second floor office suite will begin.
- Hanging of the geothermal loop piping at the west end of the building will continue.
- Heating/cooling units continue to be placed throughout the building.
- Plumbing work continues on both the first and second floor bathrooms.
- Application of the exterior weatherproofing membrane will begin this week.
- Interior block installation continues.
- Application of spray foam insulation continues on the second floor.

If anyone has any questions, please do not hesitate to contact David Ligeikis at 607 765-9710.

SUNY Broome students to present at sustainability conference

Focus on Accomplishments logo

Professor Robert Lofthouse's students will be presenting at the New York Coalition for Sustainability in Higher Education (NYCSHE) Conference on Wednesday, Nov. 15.

They will be presenting on the 2016 Energy to Lead Projects, which include SUNY Broome's geothermal system for the new Calice Advanced Manufacturing Center.

The conference will take place at SUNY Cortland. Congratulations and good

luck!

What's up on the trail? Introducing the Natural Areas Trail Cameras

November 13, 2017

Buzz

With 125 acres of mixed habitats, the SUNY Broome Natural Areas offer many of the necessities for a diverse group of animals. While walking the 3.8 mile trail system, a quiet, observant visitor is sure to come across many different species of wildlife but what about some of the more wary or rare species that might be present?

Currently, we have six trail cameras deployed in the Natural Areas with the goal of documenting the wildlife present. Five of these cameras have been running since the first week of June 2017 and one was just added in September. These cameras are taking numerous photos (estimated at around 20,000 so far) and we have kept more than 7,000 images. At least 14 mammal species, 13 bird species and one reptile (a snake!) have been captured by the cameras.

We would like to share some of this information with the Campus community, so look forward to some regular posts about what we are finding!

The trail cameras all have night-vision capability and capture images of our wary nocturnal creatures such as this raccoon in a stream pool.

White-tailed deer are the most common pictured animal on the trail cams.

Here is a shot of the Steward of the Natural Areas —Victor Lamoureux of the Biology department—approaching the trail camera in the West Woods. If you have questions about the Natural Areas, contact him at lamoureuxvs@sunybroome.edu. For students, there are volunteer activities and independent studies available.

The Right Answer: Percy returns to college to pursue a passion for math

November 13, 2017

Featured News

Percy Blank enjoyed his math classes the most while he was working toward a bachelor's degree in sociology. They were his "fun classes," a way to defuse stress.

"I ended up working in human services for a while but I realized that with my skills, it wasn't the right fit," Blank said.

That's why the freshman headed back to class, majoring in SUNY Broome's new Mathematics degree program. Ultimately, the Corning-area native hopes to transfer into Binghamton University's engineering program.

"Having a really strong foundation in math will put me in a better place," he said.

It's been a decade since Blank earned a bachelor's degree at Simmons College, and he made sure to start his first semester off right – with differential equations, the most difficult class he has faced to date. An ultra-marathoner who runs barefoot, he enjoys challenges and isn't adverse to a hard slog. (His longest finished race was 50 kilometers, a little more than 31 miles.)

"In general, it's been a pretty exciting semester to see the things I'm learning. My physics lab is my favorite class," he said.

He describes himself as a conceptual learner, eager to see the big picture and how all the different components are connected. It's a mindset that will serve him well not only in mathematics, but in related fields such as engineering.

Beyond transferring to Binghamton University, his options are open and he has a wide range of interests. One early contender was biomedical engineering, but now Blank finds himself intrigued by computational biology, which applies mathematical models to the study of biological systems. It's a fascinating field and has been used for a wide range of researching purposes, including sequencing the human genome.

Why does math appeal to Blank?

"It's in everything else in the world," he explained. "Even if the problem is really messy and tangled up, there is at least clear, agreed upon, mathematical language to describe it with. I think it is the precision of math that is actually most appealing, and soothing, to me."

Partnership agreement offers SUNY Broome students a pathway to BU's new School of Pharmacy and Pharmaceutical Sciences

November 13, 2017

Buzz

Health issues graphic

A new partnership between SUNY Broome and Binghamton University will offer eight qualified students guaranteed acceptance into the University's School of Pharmacy and Pharmaceutical Sciences each academic year.

SUNY Broome and Binghamton University will announce this partnership during a press conference at 2 p.m. Nov. 28 in Decker Health Sciences Building atrium on the SUNY Broome campus. Students will be able to learn more about this program during a Common Hour presentation at 11 a.m.

Nov. 30 in Decker Health Sciences Room 213 on the SUNY Broome campus.

While SUNY Broome has multiple transfer agreements with Binghamton University at the undergraduate level, this initiative marks the first time the two institutions will offer a direct pathway to a doctoral degree program – in this case, the Doctor of Pharmacy, or PharmD, degree.

"This is another exciting academic partnership with Binghamton University, SUNY's most sought-after university for top students. SUNY Broome is already among their largest feeder schools with our transferring students, and this agreement will add to that long-standing success for both institutions," said SUNY Broome President Kevin E. Drumm. "We are honored to partner with our SUNY big sister for this latest program, which will allow our students a direct pathway to a graduate degree and ultimately a fulfilling, high-demand career."

"We are excited to announce yet another impactful partnership with SUNY Broome," said Binghamton University President Harvey Stenger. "Binghamton University values its transfer students, and this initiative will bring in some exceptional students into a promising new program for years to come."

Students in SUNY Broome's Health Sciences and Liberal Arts Associate in Science degree programs are eligible for the eight slots, although health sciences students will need to take a few additional classes beyond their associate degree requirements.

Eligible students need to complete all prerequisites to be enrolled. AP credit and dual-credit courses while in high school may fulfill prerequisite courses at the discretion of the University. Students must also submit an online application to the Pharmacy College Application Service (PharmCAS) no later than Jan. 1 of the year they plan to enroll in the School of Pharmacy and Pharmaceutical Sciences, or prior to Sept. 1 if they're opting for an early decision.

Eligible students must also achieve a minimum math and science grade point average (GPA) of 3.0 and a minimum composite score of 50 on the Pharmacy College Admission Test (PCAT) on or before the January test date prior to the academic year for which they are seeking enrollment.

"As dean, I am excited for this collaboration to begin," said School of Pharmacy and Pharmaceutical Sciences Dean Gloria Meredith. "SUNY Broome will serve as a bridge to a bright future for those who aspire to enter the pharmacy profession, and I look forward to welcoming them."

"This partnership builds on the strength of our existing transfer agreements, and our transfer opportunities as a whole," said SUNY Broome Chief Academic officer and Executive Vice President Francis Battisti. "Our academic programs are rigorous at SUNY Broome and they truly prepare students for their next steps in their educational career. We're excited to help even more students achieve their educational goals through this program."

Students who don't meet the above criteria still remain eligible to apply for admission to the school via PharmCAS, provided that they complete the prerequisite courses, achieve the minimum cumulative and math/science GPAs of 2.75, complete the PCAT and submit all required application materials by March 1 of the intended year of entry.

The Students' Voice: Alexandra learns civic engagement by participating on a county board

November 13, 2017
Buzz, Featured News

Alexandra Yoest

Alexandra Yoest

Students are the future of any community, providing the next generation of families, workers, elected officials and leaders.

With that in mind, Broome County Executive and SUNY Broome alumnus Jason Garnar announced the formation of the Student Board of Advisors, the first completely student-driven youth delegation in Broome County government. Created in the spring, the panel is comprised of members of local high schools, as well as SUNY Broome, Binghamton University and Davis College.

Representing SUNY Broome are Alexandra Yoest and Bridget Bar. As members of the panel, they have the opportunity to directly advise the Broome County Executive, meet government officials, and learn about local government and the policy process, as well as gain valuable leadership skills in civic engagement.

"A lot of people my age don't like to talk about politics, but policies are going to affect them, so they should," said Yoest, a freshman in the One Year Associate in Arts (AA1) degree program.

A Chenango Forks graduate, Yoest previously witnessed the workings of local government through Broome-Tioga BOCES New Visions program, in which she visited Binghamton Family Court and City Court. She also participated in an internship under the previous Broome County Executive, and was eager to deepen her knowledge when she learned about the Board of Advisors opening.

"Being able to get involved in this program is an interesting and important opportunity," she said. "I'd like to see what is important to students. I think it will be a growing experience for me and the county executive also."

Alexandra didn't initially plan on attending SUNY Broome, but the local option made more sense financially. The AA1 program has proven to be challenging, but good preparation for any level of study – and a chance to form bonds with her fellow AA1 students, a small and dedicated group who share many of the same classes. The program's Research Methods study is taught like a graduate course, she said.

While the AA1 program is academically rigorous, it teaches lessons outside the classroom, too. "I thought it would be a good learning experience on how to manage my time wisely," said Yoest, who also works at Weis.

The board is also good training for Yoest's future: After completing her Associate's, she plans on transferring to another SUNY school to study political science.

"Eventually I would like to work in a nonprofit that helps to advocate for civil rights," she said.

As a member of the advisory board, Alexandra would like to connect with SUNY Broome students on their issues and concerns. She invites students to email her at yoestac@acad.sunybroome.edu.

In the Community: Join the Women's Suffrage Book Club!

November 14, 2017

Buzz

Women march for voting rights in New York State.

This fall and winter, join the Women's Suffrage Book Club, a reading and discussion program celebrating the centennial of women's voting rights in New York State!

Women march for voting rights in New York State.

Four selected texts will serve as catalysts for discussions on cultural understanding, civic engagement and personal reflection. Participants are encouraged to share their various perspectives on the texts.

Upcoming books and discussions include:

- 12 p.m. Nov. 19: *A Woman's Crusade: Alice Paul and the Battle for the Ballot*
- 6 p.m. Dec. 15: *African American Women in the Struggle for the Vote, 1850-1920*
- 12 p.m. Jan. 13: *Sex Wars: A novel of Gilded Age New York*

The Book Club will be held in the Visitor Center Theater and Melyssa Wrisley, an adjunct instructor in SUNY Broome's the History, Philosophy and Social Sciences Department, will be the facilitator. There is a minimal fee of \$5 per session, free for Roberson members. Book rentals are available through Roberson.

Participants who want to borrow any of the books through Roberson can provide a \$15 cash deposit per book, which will be refunded when the book is returned. To register, please call or visit the Museum.

This adult reading and discussion program is provided by a grant through Humanities New York.

See 'Fools' at SUNY Broome's Little Theatre Nov. 16 and 17

November 14, 2017

Buzz

Join SUNY Broome's Theater program this Thursday and Friday, Nov. 16 and 17, for a production of Neil Simon's *Fools*. The curtain is at 7:30 p.m. and the show ends by 9 p.m. at the Angelo Zuccolo Little Theatre, located in the SUNY Broome Student Center.

This is a lesser known play of the famous author of landmark works such as *The Odd Couple*, *The Sunshine Boys*, *Lost In Yonkers* and *Sweet Charity*, but it received rave reviews when first produced on Broadway in 1981.

The play is a fable about a master teacher who has landed a great job in a Russian hamlet only to find out that an old curse has everyone in the town suffering from chronic stupidity — and it's the schoolteacher's job to break the curse! The play includes a folksy love story inside a fairy tale plot and has every kind of comedy from old-time vaudeville jokes to farce, as well as colorful characters and plenty of comedic twists and turns.

Students

involved in a theater production, and especially a comedy, learn not only the skills that can bring them work on stage, TV and film, but also help develop the qualities of empathy, collaboration, seeing multiple perspectives, problem-solving and how we are all more alike than we are different.

So please set your calendars to attend this evening of fun. Reservations can be made at 778-5191.

Focus on International Students: Pursuing her dream and praying for a family in exile

November 14, 2017

Featured News

This is the fifth in a series of stories on SUNY Broome's international students, who come from all over the globe. The college will celebrate International Week from Nov. 13 through 17. International students will share the cuisines of their homeland at the Dining Hall, and will visit the BC Center to read children's books from their home countries.

Today we meet Melissa Uwamahoro, an Excelsior College student from Burundi.

Most Americans don't know where Burundi is, and Melissa Uwamahoro is aware of that. She started off an interview by spelling the name of her home country, a landlocked nation in East Africa located just south of the equator.

It's largely rural and quite small, with a tropical climate. The people are friendly, Uwamahoro said.

But not always.

"In Burundi, it's very dangerous right now," explained the SUNY Broome

alumna, who is currently pursuing a bachelor's degree through the Excelsior College partnership.

The troubles began in the spring of 2015, when President Pierre Nkurunziza decided to run for a third term, a move protested by many people. An attempted coup heralded even more troubles, and many have fled the small country in search of safety – including Uwamahoro's family.

"People are being killed and kidnapped. Everything changed in the country," she reflected.

Coming to SUNY Broome

Before the troubles began, Uwamahoro learned about SUNY Broome from her cousin, who had attended the college, and followed his footsteps. She graduated with an Associate's degree in May 2015, and is majoring in business through Excelsior. She has a passion for business, stemming in part from her family; they had owned a gas station back home.

"I love SUNY Broome. It became my second home when I came here in 2014," she said.

Like most international students, English isn't Melissa's first language and becoming fluent was among her first priorities. Overall, the professors were understanding and the campus community was very welcoming, she said.

As a SUNY Broome student, she was involved in the International Student Organization, which gave her the opportunity to network with other students and learn about a variety of cultures. She recommends the club to everyone, native-born Americans included.

When Uwamahoro first arrived in the United States, she was surprised by Binghamton, which seems so different from the big cities that she initially imagined.

"I wondered, 'Was I going to a village?'" she said of that initial trip. "I like it because it's small, so you can connect with people quickly."

Danger at home

At present, Uwamahoro doesn't have a country to return to, nor does her family. She experienced the chaos in Burundi firsthand in 2016, when her passport expired, forcing her to return home to have it renewed.

As soon as she arrived, she was arrested and asked for her identity.

"They were thinking I was a journalist. Journalists are not allowed to tell the truth there, and they have been killed," she said.

Because of her American connections, she was safe – for a while. In the middle of the night, agents came to her family's house with dark intentions. Melissa and her family had escaped, but their housemate was killed.

She was able to obtain a passport thanks to family connections, and her family left the country on the first flight out, leaving everything behind.

"I wanted to stay. I was feeling that if we die, we should all die together," she remembered. "But my family said, 'You have an American visa. You have an opportunity.'"

Her family fled to neighboring Rwanda to escape the violence, while Melissa returned to Binghamton. Her brothers, who participated in the protests, are on the government's wanted list and could be killed if they return.

She's worried about her family, but they tell her that they are safe. Still, she prays hard for them and hopes to help them in any way she can once she embarks on her career.

"I have to stay strong and if anything happens..." Her voice trailed off. "I hope they're going to be okay."

Fall food drive to aid SUNY Broome students in need

November 14, 2017

Buzz

Thanksgiving logo with turkey and fall leaves

Gobble, gobble — give! Medical Assisting Students are asking you to join them in their effort to help stop hunger on our SUNY Broome campus.

Every SUNY Broome student should have a Thanksgiving dinner. A special collection will be conducted between Nov. 6 and 20 to provide SUNY Broome students with holiday food items. From Nov. 21 through Dec. 11, we will continue to collect items to stock the SUNY Broome Food Pantry for the winter months.

Thanksgiving items: boxed stuffing, instant potatoes, macaroni & cheese, canned yams, fruits, vegetables, gravy, cranberry sauce, biscuit/muffin mixes, canned/boxed desserts, store gift cards to purchase turkey/ham/entree

Other Items: Canned fruits, veggies, & meats (stews, chicken, tuna), soups, boxed dried food (stuffing, pasta, rice, potatoes, macaroni & cheese, cereals, instant meals), cookies, crackers, granola bars, peanut butter, jelly, cake/muffin/biscuit mixes, personal hygiene supplies, and paper towels, napkins, toilet paper

Look for collection bins in: Decker Health Science Office (217), Applied Technology, Natural Science Center, Titchener (210), Business (Main floor), the Counseling Center (SS 210), and the Library

Want to arrange for a pick up/drop off? Want to donate money/a gift card? Please contact: Professor Kim McLain Phone: 778-5258 Email: mclainkb@sunybroome.edu

Third Annual Health for Haiti Bowling Tournament

November 16, 2017

Buzz

Bowling for Haiti in 2015

SUNY Broome Health for Haiti invites SUNY Broome faculty, staff, administrators, students, family and friends to a one day bowling tournament on Dec. 9 at Midway Lanes in Vestal. Four-person teams will compete throughout three games (bowling shoes and pizza and wings included). There will also be a 50/50 drawing and awesome prize baskets!

Proceeds will be donated to the Health for Haiti's continuing class projects taking place in Grande Saline and Cite Soleil. Teams interested in participating are asked to provide their team name and contribution to Diane Kelly at kellydm@sunybroome.edu. Submission of team names will lock you in for the Dec. 9 date.

Those interested in participating, but lacking a team, are welcome to submit their name and contribution. We'll happily match you with a team. Team names are due Nov. 25 and contributions are due Dec. 2.

The latest edition of Broome Magazine is here!

November 16, 2017

Buzz

The Office of Alumni Affairs is pleased to announce that the Spring 2017 edition of Broome Magazine has arrived! Current and back issues can be found at www.sunybroome.edu/magazine

This edition features the Broome Community College Foundation Annual Report, along with special focus articles on our students, faculty and staff and the favorite: class notes. You can share updates about your career, retirement, marriage, children, or any of your accomplishments, and we may include it in a future edition of Broome Magazine!

Sharing your news is now easier than ever with the new, online Class Note Submission Form. Visit our website for more information.

We hope you enjoy the Spring 2017 edition of Broome Magazine!

What's up on the trail? Happy Thanksgiving

November 16, 2017
Featured News

Professor Lamoureux gets up close and personal with a trail camera.

The SUNY Broome Natural Areas' trail cameras definitely catch birds as well as mammals. Probably the largest bird so far is the Wild Turkey and it has made the cameras three times. Benjamin Franklin wanted this bird to be our national symbol instead of the bald eagle!

Happy Thanksgiving to all!

In the Spotlight: An incredible opportunity pushes Ruddy to strive harder for success

November 16, 2017
Featured News

Ruddy Green

Ruddy Green is comfortable with cameras these days. He developed that familiarity over the summer, when a film crew from *The Ellen DeGeneres Show* followed him and his family as he prepared to enter college, documenting the heady swirl of feelings such as change brings. The crew visited SUNY Broome, too, accompanying Ruddy and his family during Move-In Day at the Student Village and also taking footage of him in class on campus.

Ellen Presents ‘Summit’ – Official Trailer
<https://youtube.com/watch?v=pRQ8Nv6NKrQ>

Why all the attention?

Green and the entire senior class at Brooklyn’s Summit Academy received four-year scholarships from Walmart, which they learned about during an emotional visit to Ellen’s Los Angeles studio show. The interest doesn’t stop there: Ruddy and five other Summit graduates are the center of a documentary series called *Summit* that airs each Wednesday on *The Ellen DeGeneres Show*.

“When we got on top of the stage, we were so surprised. We didn’t know we would get scholarships,” Ruddy said.

Ellen Presents 'SUMMIT' – Episode 1

<https://youtube.com/watch?v=XPIpS7OvbM>

At the moment of the reveal, all the students – Ruddy included – jumped up and down, with ecstatic expressions and tear-filled eyes. “Walking into the Ellen Show, it seemed like a dream,” he remembered. “We knew Ellen was going to introduce us. I was very emotional and nervous at the same time.”

Each week, viewers watch as the six students’ stories unfold. They include Ruddy, now at SUNY Broome; Keanna Pinckney at Corning Community College; Quincy Phillips at SUNY Purchase; and Nyasha Biggs, Sharinel Nunez and Melick Lubin at the University at Albany. All are from the Red Hook section of Brooklyn, a landscape of housing developments and high poverty where only 4 percent of students go on to attend college.

Ellen Presents 'SUMMIT' – Episode 2

<https://youtube.com/watch?v=dHfFcfixA2c>

In his segments, Ruddy – the youngest in his family – talks about his special tie to his mom, who is both thrilled that he is pursuing his dreams and tearful to see him go.

Ruddy almost didn’t qualify for the Walmart scholarship. Going into his senior year, he was behind academically and school administrators weren’t sure he would graduate on time. But he pushed hard to bring up his GPA, and is continuing to strive for excellence in the classroom.

“Still to this day I can’t believe this is happening,” he said. “It inspired me to work h💪. This has just pushed me further to expand on my dreams.”

Ellen Checks in with Brooklyn's Summit Academy

<https://youtube.com/watch?v=t8x0AcjBSk0>

Green recently had the opportunity to fly back to LA with the other featured graduates and meet Ellen a second time. During the segment, he discussed some of the non-academic challenges of college life – such as learning to do his laundry and clean his room, away from the watchful eye of his mom.

And while there, he received another incredible gift from Walmart: \$10,000 to pay for college expenses. During the segment, he gave Ellen a hug – after jumping up and down.

“The whole experience was fun. I honestly didn’t want to leave LA!” Ruddy said of his trips to the studio. “Ellen DeGeneres was one of the sweetest people I’ve ever met. She’s so kind. Going on her talk show was one of the best moments I ever had.”

Ruddy Green

been helped.

“I come from a background where it’s not so great. I know kids like me struggle,” he said. “When I get older, I want to help kids like me.”

Coming to SUNY Broome

Ruddy first visited SUNY Broome back in high school, and it made an impression.

“I fell in love with the environment. I wanted to experience life by going to Upstate New York,” he said.

He also appreciated the strength of the college’s Criminal Justice program, and is majoring in that field. Long-term, he hopes to transfer to the University at Albany and become either a lawyer or a criminal investigator.

While he didn’t enroll in time to try out for the soccer team, Ruddy is thoroughly enjoying his time at SUNY Broome and the Student Village, which hosts a wide range of activities, from movies to game nights.

Along the way to college, he learned some important lessons – one of which is the importance of confidence and drive. Don’t be jealous of other’s successes; if you work hard, you can achieve the same, he counseled.

And it’s also important to pay it forward – to help others just like you have

Focus on International Students: Rasmus shoots for success, on and off the court

November 16, 2017
Featured News

This is the sixth in a series of stories on SUNY Broome's international students, who come from all over the globe. The college is celebrating International Week from Nov. 13 through 17. During the week, international students will share the cuisines of their homeland at the Dining Hall, and visit the BC Center to read children's books from their home countries.

Today we meet Rasmus Kristensen, a Sports Management major from Denmark.

International students come to SUNY Broome for many reasons: academic programs, the chance to transfer to a dream school or simply the opportunity to see America.

Rasmus Kristensen became a Hornet to pursue success not only in the classroom, but on the basketball court.

The native of Lemvig, Denmark, is a forward on the Hornets basketball team. His ultimate goal: to play basketball at a college level in the United States and then

head back to Europe to play on teams there, ultimately returning home to the Danish League. After that? Working for a big sports team.

"Besides basketball, I'm in love with all kinds of sports and the values they can teach," he said.

He estimates that about a half-dozen of his countrymen are in the United States, following the same collegiate basketball path. Basketball is a major sport in Europe, although it's still pretty small in Denmark, said the freshman Sports Management major. College basketball also doesn't exist in the same way as the United States, as most institutions only have club teams.

There are tradeoffs, of course: He's far away from his mom and his friends back home. The Danish university system is also famously free, and some of his American friends call him crazy for giving that up. But for Rasmus, the chance to pursue glory on the court is worth the cost.

"For me, the USA is the father of basketball. It's where the highest level of competition is," he explained.

Kristensen appreciates the challenging nature of his courses, which expect students to be independent. And while many students might not particularly enjoy tests and assignments, Rasmus finds that the grading system lets him know exactly how he's performing in his class – something he didn't encounter so much back home.

On campus, he has opted to live in the Student Village, which puts him close to practice, classes and other amenities while providing the "college experience," he said.

While he's far away from home, he is finding his place at SUNY Broome, both on the court and off.

"My hometown is 6,000 to 7,000 people. It's the kind of town where everybody knows everyone," he said. "I feel the same thing is happening with campus, which is good."

Business and Professional Studies Toys For Tots Holiday Bash on Dec. 4

November 16, 2017

Buzz

SUNY Broome's Business and Professional Studies division will be hosting their second annual Toys for Tots Holiday Bash from 4 to 7 p.m. Dec. 4 at the Broome County Regional Farmer's Market, located across the street from the college at 840 Front St.

Please join the students and faculty in collecting unwrapped toys for local families. There will be a \$10 spaghetti dinner for purchase prepared by Hospitality's Professional Cooking class, as well as mocktails created by the Bartending class . Come take pictures with Santa and partake in festive activities!

Serious about psychology? Take this exciting new research course!

November 17, 2017

Buzz

Intrigued by psychology? Check out this exciting new research course!

PSY 295 (WE): Psychology Research Capstone is intended for serious students who wish to pursue further work in psychological science at the undergraduate or graduate level. The course is designed to satisfy the General Education requirements for Critical Thinking and Information Management, as well as providing a Writing Emphasis credit.

You'll choose your own group project, and will design and perform original psychological research to produce professional publications or presentations. As part of the process, you'll:

- identify a researchable problem in psychology;
- locate and critically evaluate appropriate existing psychological research;
- demonstrate an understanding and mastery of a particular research method used in psychology, including research design, data analysis, data interpretation, and the development of conclusions from evidence;
- develop collaborative research and communication skills;
- learn to write as psychological scientists do; and
- learn to communicate effectively about the results of psychological research with non-scientists.

Finally, we'll submit the finished work for you to present at a professional psychology conference, or submit it for publication to a professional journal in psychological science.

Prerequisites for the course are:

- General Psychology (PSY 110)
- College Writing (ENG 110)
- Permission of the instructor (Dr. Bill Altman)

For more information, please contact Dr. Bill Altman:

- by phone-607-778-5216
- by email altmanws@sunybroome.edu or
- by dropping by to chat at Titchener 011A.

Mark Your Calendar: Giving of the Toys on Dec. 14

November 17, 2017

Buzz

 Giving of the Toys logo

The holiday season has started — and with it comes the annual announcement for The Giving of the Toys, which will be at 11 a.m. Dec. 14.

For more than 20 years, this event became one of SUNY Broome's ways of getting ready for the holidays: more than 60 offices, departments, clubs, athletic teams and campus organizations presented toys to Santa at the Student Center. The gifts are then

forwarded to the local Toys for Tots campaign. Often groups bring toys appropriate to their organization: the Maintenance Department donated toy trucks; the basketball teams gave basketballs; the International Students Organization contributed toys from all over the world, etc.

Student Activities is asking you to give again. Each year the need grows and gets even more local, with many of our students in need.

If your office or other group wishes to participate can fill out this form or contact the Student Activities Office at BoringJW@SUNYBroome.edu.

Gifts given on the day of the event will happily be accepted. Of course, we will have hot chocolate and donuts and holiday music. The Buzz and Focus will carry more information on the event as the time draws closer.

The Monday Poem: 'Herd Of Buffalo Crossing The Missouri On Ice' by William Matthews

November 19, 2017

Buzz

The Monday Poem is brought to you by Professor Jim Gormley of the English Department. Enjoy!

Herd Of Buffalo Crossing The Missouri On Ice

If dragonflies can mate atop the surface tension
of water, surely these tons of bison can mince
across the river, their fur peeling in strips like old

wallpaper, their huge eyes adjusting to how far
they can see when there's no big or little bluestem,
no Indian grass nor prairie cord grass to plod through.

Maybe because it's bright in the blown snow
and swirling grit, their vast heads are lowered
to the gray ice: nothing to eat, little to smell.

They have their own currents. You could watch a herd
of running pronghorn swerve like a river rounding
a meander and see better what I mean. But

bison are a deeper, deliberate water, and there will
never be enough water for any West but the one
into which we watch these bison carefully disappear.

—William Matthews

William Matthews's poetry has earned him a reputation as a master of well-turned phrases, wise sayings, and rich metaphors. Much of Matthews's poetry explores the themes of life cycles, the passage of time, and the nature of human consciousness. A couple of his poems have been likened to "deep image" poems, which allow one strong image to dominate each poem and to evoke many strong feelings and associations. Writing in the *Bloomsbury Review*, Christopher Merrill identified Matthews as "one of our most alert and engaging poets."

Trivia for Tots on Nov. 29

November 19, 2017

Buzz

Tutor Club is hosting a Trivia for Tots event Wednesday, Nov. 29, in Titchener 102. Doors open at 5:30 p.m. and trivia starts at 6 p.m. The cost is \$15 per team of five. The Hospitality Club will provide refreshments. All proceeds will be donated to Toys for Tots. To register your team, contact Jessica Nurczynski at nurczynskijv@acad.sunybroome.edu.

Nov. 30 event: 'Understanding Media' in 2017

November 19, 2017

Buzz

Marshall McLuhan

Marshall McLuhan

The work of pioneering media theorist Marshall McLuhan is becoming increasingly relevant to our contemporary, interconnected world. Having coined the expressions “The Media is the Message” and the “Global Village,” McLuhan is also credited with predicting the Worldwide Web almost 30 years before it was invented and his work is receiving a great amount of renewed interest in both academia and the mainstream.

Join us from 12 to 1:15 p.m. Thursday, Nov. 30, in Titchener 101 for a rare opportunity to discuss McLuhan’s seminal work, “Understanding Media,” with McLuhan’s son, internationally-known lecturer Dr. Eric McLuhan in addition to McLuhan’s grandson, media educator Andrew McLuhan, via Skype. The event will be moderated by Communications Instructor Nick Bongiorno.

Fall food drive to aid SUNY Broome students in need

November 19, 2017

Buzz

Thanksgiving logo with turkey and fall leaves

Gobble, gobble — give! Medical Assisting Students are asking you to join them in their effort to help stop hunger on our SUNY Broome campus.

Every SUNY Broome student should have a Thanksgiving dinner. A special collection will be conducted between Nov. 6 and 20 to provide SUNY Broome students with holiday food items. From Nov. 21 through Dec. 11, we will continue to collect items to stock the SUNY Broome Food Pantry for the winter months.

Thanksgiving items: boxed stuffing, instant potatoes, macaroni & cheese, canned yams, fruits, vegetables, gravy, cranberry sauce, biscuit/muffin mixes, canned/boxed desserts, store gift cards to purchase turkey/ham/entree

Other Items: Canned fruits, veggies, & meats (stews, chicken, tuna), soups, boxed dried food (stuffing, pasta, rice, potatoes, macaroni & cheese, cereals, instant meals), cookies, crackers, granola bars, peanut butter, jelly, cake/muffin/biscuit mixes, personal hygiene supplies, and paper towels, napkins, toilet paper

Look for collection bins in: Decker Health Science Office (217), Applied Technology, Natural Science Center, Titchener (210), Business (Main floor), the Counseling Center (SS 210), and the Library

Want to arrange for a pick up/drop off? Want to donate money/a gift card? Please contact: Professor Kim McLain Phone: 778-5258 Email: mclainkb@sunybroome.edu

Audiences cheer theater production of Neil Simon's 'Fools'

November 20, 2017
Featured News

"Our theater production of FOOLS by Neil Simon was a big success with cheering audiences numbering over 320 over two evenings," said SUNY Broome theater director Katherine Bacon.

For those who couldn't make it but would have liked to do so, pictured are the actors in a few of the scenes. Many thanks to all who were able to attend!

Like in all the arts, students involved in a theater production, and especially a comedy, learn not only the skills that can bring them work on stage, TV and film but also help develop the qualities of empathy, collaboration, seeing multiple perspectives, problem-solving and how we are all more alike than we are different.

On-campus construction activities for the week of Nov. 20

November 20, 2017

Buzz

Looking for information specific to the renovation of the Mechanical Building? We now have a dedicated website. [Click here](#) periodically for ongoing updates to the project, including the weekly construction update. As always, make sure to follow all signage and safety precautions in affected areas.

- Piping from the geothermal field will be brought into the new Calice Advanced Manufacturing Center at the northwest corner of the building.
- Weatherproofing of the external walls will continue (sealing of the joints and application to the exterior walls).
- Wall framing in the second floor office suite is nearing completion.
- Approximately 75% of the heat pumps have been installed.
- Asbestos abatement in the building has been completed.
- Corridor framing will begin on the second floor.
- The mounts for the plumbing fixtures in the restrooms will be tested.
- Electrical “rough ins” are nearly 75% complete.
- Some steel erection for the connector/atrium should begin later this week.

If anyone has any questions, please contact David Ligeikis at 765-9710.

Join the BCC Foundation all day and all night Nov. 28 for #Broome24

November 20, 2017

Buzz

#Broome24 is coming!

#Broome24 is coming!

Join us for another momentous day of giving on Tuesday, Nov. 28. Our annual 24 hours of giving event went far beyond our expectations last year and we are going to do it again – but we need your help!

This year's goal is to have 250 donors on Nov. 28. Last year, the event drew more than 240 donors and gifts totaling \$80,000.

We challenge our alumni, community friends, students and local businesses to help make this campus an even better place to receive an education and life experiences that will be remembered in the lives of our students now and into the future. The Broome Community College Foundation's scholarship program has become successful because of our donors, but with increasing tuition, living expenses and some of life's burdens, some students cannot attend without the much needed additional financial help.

We have also received a challenge gift of \$25,000, which has been pledged by our Foundation Board of Directors and community friends.

Through social media, email and our dedicated webpage people will be able to tune into real time excitement and engage with one another and see how this day will impact our students' futures. We are resetting our clock, our donor counts and our goal!

ALL NIGHT, ALL DAY, ALL #BROOME24

Events will be taking place in the BCC Foundation Office, Wales Center Room 201 and the Student Center Lobby on Tuesday, Nov. 28, all day!

SUNY Broome instructor, students curate TechWorks! camera exhibit

November 21, 2017

Buzz

Black and white camera

SUNY Broome instructor Marcia Blackburn and two of her Image Theory students, Matthew Otey and Cody Taylor, are curating an exhibit of Ansco cameras at TechWorks! at 321 Water St. in Binghamton. The cameras come from the Wilbur Dodge Collection.

The exhibit opens from 1 to 4 p.m. Saturday, Nov. 25, and is part of the TechWorks! Holiday Open House. TechWorks! is open Tuesdays, Thursdays and Saturdays from 1 to 4 p.m.

In addition to the cameras, new collection items on display include:

- 1960s Underwater scooter by Ed Link – think Lloyd Bridges in Sea Hunt
- 1980s IBM Check Reader – Magnetic Ink Character Recognition (MICR) technology
- 2017 Skeleton sled built by Randy Will – raced by Jamaican Olympic team

Technology in Action on Thanksgiving Saturday include:

- IBM Blood Cell Processor – demonstrated by Alan Jones
- IBM S/360 Printer & Card Punch/Sorter – make a banner for the holidays with Bob Lusch
- Link Pilot Trainers – demonstrated by Gordon Ruston and friends
- Universal Instruments electronic assembly – demonstrated by Don Burschnik
- Pick lottery numbers with 1980s Atari computer – demonstrated by Rich Modafferi
- Vote with 1920s Lever Machine technology & 1960s Votomatic (of hanging chad fame)
- Play a Link Nickelodeon, Bend a giant paperclip with holiday card, Emboss a Braille greeting,

and more.

First Friday event at SUNY Broome's new Collaboration Lab

November 21, 2017

Buzz

You're invited to a celebration of innovation at SUNY

Broome's Collaboration Lab on First Friday, Dec. 1, in downtown Binghamton.

The Collaboration Lab is located on the top floor of the Koffman Southern Tier Incubator in downtown Binghamton, at the corner of Hawley and Carroll streets. Its aim is to support student entrepreneurship, and the space is equipped to best inspire innovative brainstorming, collaboration and the launch of outcome-oriented projects and services.

Join us for a 10 a.m. press conference highlighting the Co-Lab and the opportunities it fosters. **From 6 to 9 p.m.**, visit the Collaboration Lab for First Friday exhibits and presentations featuring the work of SUNY Broome students, and community entrepreneurs who got their start through Continuing Education's Entrepreneurial Assistance Program.

The Innovation Celebration will coincide with Binghamton University's

ART@INK, which will take place on the ground floor of the incubator.

Refreshments will be served during the First Friday event. Parking is available in the incubator lot.

Show off your public speaking skills and check out some unique pizzas!

November 21, 2017

Buzz

Come test your skills at off-the-cuff speaking with Speakers of the House and win prizes, fame and glory from 3 to 4:30 p.m. Dec. 1 and 8 in Wales 203B!

After the preliminaries for the Speakers of the House speech contest on those dates, be sure to head to the speech contest itself from 3 to 5 p.m. Dec. 15 in Decker 201.

While you're listening to some great speeches, sample some unique pizza creations including taco, cheese steak or the Diabeetus Tremendus, a delectable dessert pizza with all the incredible dessert topics you can think of and some you can't!

Business and Professional Studies Toys For Tots Holiday Bash on Dec. 4

November 23, 2017

Buzz

SUNY Broome's Business and Professional Studies division will be hosting their second annual Toys for Tots Holiday Bash from 4 to 7 p.m. Dec. 4 at the Broome County Regional Farmer's Market, located across the street from the college at 840 Front St.

Please join the students and faculty in collecting unwrapped toys for local families. There will be a \$10 spaghetti dinner for purchase prepared by Hospitality's Professional Cooking class, as well as mocktails created by the Bartending class. Come take pictures with Santa and partake in festive activities!

In the Community: Nimmonsburg United Methodist Church's annual Holiday Bazaar

November 23, 2017

Buzz

Nimmonsburg United Methodist Church will be holding their Annual Holiday Bazaar from 9 a.m. to 3 p.m. Dec. 2 and 9. The church is located at 918 Upper Front St., across the street from SUNY Broome.

The bazaar will feature holiday gifts and decorations, handcrafted items, jewelry, a white elephant sale, and a bake sale. This is a great time to do your holiday shopping! Please call 607-724-5421 with any questions.

Nov. 30 Common Hour: Learn about transfer options to BU's Pharmacy School

November 26, 2017

Buzz

Come learn about the new articulation agreement between SUNY Broome and Binghamton University's Pharmacy school from 11 to 11:50 a.m. Nov. 30 in Decker 213. Learn about the details and requirements to start your path today!

The Monday Poem: Two poems by Ted Kooser

November 26, 2017

Buzz

The Monday Poem is brought to you by Professor Jim Gormley of the English Department. Enjoy!

A Happy Birthday

BY TED KOOSER

This evening I sat by an open window
and read till the light was gone and the book
was no more than a part of the darkness.
I could easily have switched on a lamp,
but I wanted to ride this day down into night,
to sit alone and smooth the unreadable page
with the pale gray ghost of my hand.

An Old Sidewalk

BY TED KOOSER

THE PASSING YEARS have broken it
over the knees of tree roots,
those of great maples raining shade,
and of crippled elms whose leaves
in August turn to a lace that sifts
the heat. And the breaks have filled
with mold from which frail seedlings,
already with bark like their parents,
hold up green banners of hope.
For sixty or maybe seventy years
this sidewalk has been lying here,
literally under foot, and suddenly,
one morning when I look,
it's there, supporting me,
its every pebble like a jewel—
yellow or brown or red or black—
set in the sandy concrete, ants
patching their old gray tent.

Such happiness there is in being
a part of all this, of dismissing
the woman watching from her window
while I bend to one knee to press
my hand against a broken sidewalk,
feeling the heat of that same light
that the sparrow hops over,
and that warms the cricket as it carries
its song across town in its purse.

Ted Kooser is a two-time US Poet Laureate and the author of numerous poetry collections, including *Delights & Shadows*, which won the Pulitzer Prize for Poetry, and *Splitting an Order* (Copper Canyon Press, 2014). As Poet Laureate he created “American Life in Poetry,” a free weekly column for newspapers, featuring a poem by a contemporary American writer. Born in Ames, Iowa, Kooser is a former vice president of Lincoln Benefit Life, where he worked as an insurance representative for many years. He teaches at the University of Nebraska, Lincoln.

Trivia for Tots on Nov. 29

November 26, 2017

Buzz

Tutor Club is hosting a Trivia for Tots event Wednesday, Nov. 29, in Titchener 102. Doors open at 5:30 p.m. and trivia starts at 6 p.m.

The cost is \$15 per team of five. The Hospitality Club will provide refreshments. All proceeds will be donated to Toys for Tots.

To register your team, contact Jessica Nurczynski at nurczynskijv@acad.sunybroome.edu.

Nov. 30 event: 'Understanding Media' in 2017

November 26, 2017

Buzz

Marshall McLuhan

Marshall McLuhan

The work of pioneering media theorist Marshall McLuhan is becoming increasingly relevant to our contemporary, interconnected world. Having coined the expressions “The Media is the Message” and the “Global Village,” McLuhan is also credited with predicting the Worldwide Web almost 30 years before it was invented and his work is receiving a great amount of renewed interest in both academia and the mainstream.

Join us from 12 to 1:15 p.m. Thursday, Nov. 30, in Titchener 101 for a rare opportunity to discuss McLuhan’s seminal work, “Understanding Media,” with McLuhan’s son, internationally-known lecturer Dr. Eric McLuhan in addition to McLuhan’s grandson, media educator Andrew McLuhan, via Skype. The event will be moderated by Communications Instructor Nick Bongiorno.

On-campus construction activities for the week of Nov. 27

November 27, 2017

Buzz

Looking for information specific to the renovation of the Mechanical Building? We now have a dedicated website. [Click here](#) periodically for ongoing updates to the project, including the weekly construction update. As always, make sure to follow all signage and safety precautions in affected areas.

During the week of Nov. 27:

- Exterior weatherproofing of the new Calice Advanced Manufacturing Center will continue.
- Inspection of the geothermal manifold will take place on Tuesday.
- HVAC units will be placed (hung) in the second floor office suite this week.
- Duct work on the east end of the second floor will continue.
- Door frames are being constructed in the second floor office suite.
- Steel erection work for the Connector (Atrium) has started.
- Foundation work (there was a revision in the structural design) in the basement of the Business Building should take place this week.

As always, if anyone has any questions, please do not hesitate to contact David Ligeikis at 607-765-9710.

Partnership agreement offers SUNY Broome students a pathway to BU's new School of Pharmacy and Pharmaceutical Sciences

November 27, 2017

Buzz

Health issues graphic

A new partnership between SUNY Broome and Binghamton University will offer eight qualified students guaranteed acceptance into the University's School of Pharmacy and Pharmaceutical Sciences each academic year.

SUNY Broome and Binghamton University will announce this partnership during a press conference at 2 p.m. Nov. 28 in Decker Health Sciences Building atrium on the SUNY Broome campus. Students will be able to learn more about this program during a Common Hour presentation at 11 a.m.

Nov. 30 in Decker Health Sciences Room 213 on the SUNY Broome campus.

While SUNY Broome has multiple transfer agreements with Binghamton University at the undergraduate level, this initiative marks the first time the two institutions will offer a direct pathway to a doctoral degree program – in this case, the Doctor of Pharmacy, or PharmD, degree.

"This is another exciting academic partnership with Binghamton University, SUNY's most sought-after university for top students. SUNY Broome is already among their largest feeder schools with our transferring students, and this agreement will add to that long-standing success for both institutions," said SUNY Broome President Kevin E. Drumm. "We are honored to partner with our SUNY big sister for this latest program, which will allow our students a direct pathway to a graduate degree and ultimately a fulfilling, high-demand career."

"We are excited to announce yet another impactful partnership with SUNY Broome," said Binghamton University President Harvey Stenger. "Binghamton University values its transfer students, and this initiative will bring in some exceptional students into a promising new program for years to come."

Students in SUNY Broome's Health Studies and Liberal Arts Associate in Science degree programs are eligible for the eight slots, although Health Studies students will need to take a few additional classes beyond their associate degree requirements.

Eligible students need to complete all prerequisites to be enrolled. AP credit and dual-credit courses while in high school may fulfill prerequisite courses at the discretion of the University. Students must also submit an online application to the Pharmacy College Application Service (PharmCAS) no later than Jan. 1 of the year they plan to enroll in the School of Pharmacy and Pharmaceutical Sciences, or prior to Sept. 1 if they're opting for an early decision.

Eligible students must also achieve a minimum math and science grade point average (GPA) of 3.0 and a minimum composite score of 50 on the Pharmacy College Admission Test (PCAT) on or before the January test date prior to the academic year for which they are seeking enrollment.

"As dean, I am excited for this collaboration to begin," said School of Pharmacy and Pharmaceutical Sciences Dean Gloria Meredith. "SUNY Broome will serve as a bridge to a bright future for those who aspire to enter the pharmacy profession, and I look forward to welcoming them."

"This partnership builds on the strength of our existing transfer agreements, and our transfer opportunities as a whole," said SUNY Broome Chief Academic officer and Executive Vice President Francis Battisti. "Our academic programs are rigorous at SUNY Broome and they truly prepare students for their next steps in their educational career. We're excited to help even more students achieve their educational goals through this program."

Students who don't meet the above criteria still remain eligible to apply for admission to the school via PharmCAS, provided that they complete the prerequisite courses, achieve the minimum cumulative and math/science GPAs of 2.75, complete the PCAT and submit all required application materials by March 1 of the intended year of entry.

Dec. 1 event: Celebrate innovation at the Incubator this First Friday!

November 27, 2017

Buzz

SUNY Broome and Binghamton University have partnered to celebrate innovation and collaboration at an event this First Friday, Dec. 1, from 6 to 9 p.m. in the Koffman Southern Tier Incubator! The event will showcase the work of student artists, musicians, entrepreneurs and more.

Binghamton University's ART @ INK event will take place on the first and second floors. Head upstairs to the third floor for the Innovation Celebration, held in SUNY Broome's Collaboration Lab.

The incubator is located at 120 Hawley St. in Binghamton.

Mark Your Calendar: Giving of the Toys on Dec. 14

November 27, 2017

Buzz

 Giving of the Toys logo

The holiday season has started — and with it comes the annual announcement for The Giving of the Toys, which will be at 11 a.m. Dec. 14.

For more than 20 years, this event became one of SUNY Broome's ways of getting ready for the holidays: more than 60 offices, departments, clubs, athletic teams and campus organizations presented toys to Santa at the Student Center. The gifts are then

forwarded to the local Toys for Tots campaign. Often groups bring toys appropriate to their organization: the Maintenance Department donated toy trucks; the basketball teams gave basketballs; the International Students Organization contributed toys from all over the world, etc.

Student Activities is asking you to give again. Each year the need grows and gets even more local, with many of our students in need.

If your office or other group wishes to participate can fill out this form or contact the Student Activities Office at BoringJW@SUNYBroome.edu.

Gifts given on the day of the event will happily be accepted. Of course, we will have hot chocolate and donuts and holiday music. The Buzz and Focus will carry more information on the event as the time draws closer.

Go Hornets: Student Activities spruces up fence with school spirit

November 27, 2017
Featured News

a bit of a challenge; they had to work on the opposite side of the fence, essentially installing the design backward.

And it was pretty darn cold. During the week it took to install the design, the students encouraged each other – and produced a lovely piece of art as a result.

“It was really satisfying to get it done,” said Hernandez, who is working on a master’s degree in supply chain management.

If you walked by the Quad construction site lately, you probably noticed a familiar face peering out from the fence.

Outlined in plastic cups in white, black and gold, Stinger has taken flight next to the geothermal well field, across from the words “Go Hornets.”

This little outbreak of school spirit was coordinated by Student Activities and completed by student workers Jelissa, Red and Camilla, with the oversight of Binghamton University graduate student intern Sam Hernandez. The project was initially the idea of Student Activities Director Jason Boring.

“He wanted to make it school-spirited and to have a better view than the construction going on,” Hernandez explained.

Student Activities worked with a company that produced the pieces. Installing them was

Save the Date: Convocation Day to feature Dr. Christopher Chabris

November 27, 2017

Buzz

The campus-wide Convocation Committee is pleased to announce that Christopher Chabris, psychologist and co-author of the best seller *The Invisible Gorilla: How Our Intuitions Deceive Us*, has been selected as our 2018 Convocation Day speaker. Chabris earned a Ph.D. in psychology from Harvard University and taught there before his current teaching post at Union College. He has spoken at Google, Goldman Sachs and Microsoft, among other places. Our speaker is a chess master and games enthusiast who writes a monthly column for the Wall Street Journal.

As a creator of one of the most famous experiments in psychology, Chabris will discuss how our intuitions lead us astray, affecting our decisions in business, the criminal justice field, the health sciences and even how we drive.

We hope that Chabris will inspire students and faculty alike to consider how illusions about attention, memory, confidence, knowledge, cause and potential can cost us dearly, and how to manage these illusions. Please note that **Tuesday April 17, 2018, is Convocation Day, on which no day or evening classes will be**

held.

Convocation 2018 will focus on important and relevant themes such as the role attention plays in police-civilian encounters, the problems with eye-witness testimony and memory, the ways in which talented medical experts and pilots may miss what is right in front of them, and how our belief in the power of confidence shapes our selection of leaders.

Attention Teaching Faculty: Important information regarding the Convocation Faculty Scholars program and the Wednesday, January 24, 2018, Convocation Institute for teaching faculty will be released shortly. Note that our three previous Convocation Institutes for teaching faculty have filled up quickly and over 80 teaching faculty enrolled as Convocation Faculty Scholars in 2017.

Campus-Wide Convocation Day Committee Members

Professor Irene Byrnes (Chair)

Faces: Holocaust Art Exhibit at Innovation Celebration on Dec. 1

November 27, 2017

Buzz

SUNY Broome students are displaying the second group of marginalized and overlooked people in the Exhibition Series: FACES.

These classical realist life-size portrait drawings are created by Associate Professor Patricia Evans' Beginning Drawing students. Portraits represent survivors and non-survivors of the Holocaust, rendered in charcoal, pencil and mixed media. Additionally, the original photo and personal story for each person affected by the Holocaust has been researched and is on display.

Faces: Holocaust will be highlighted at the Innovation Celebration event at the Koffman Southern Tier Incubator.

Date & Time:

Friday, Dec. 1, 2017, from 6 – 9 p.m.

Exhibit Location:

SUNY Broome's Collaboration Lab, 3rd Floor

Incubator Address:

120 Hawley Street, Binghamton, NY 13901

'I love this place': Orion pursues a passion for math and civic engagement

November 27, 2017
Buzz, Featured News

Orion Barber

Orion Barber

"I love this place! There are better student-faculty ratios. We couldn't have more than 30 in any given class, as opposed to 300," he said. "And I like the local community. It's home."

Getting involved

If you're on the SUNY Broome campus for any length of time, you will probably run into Orion somewhere along the way. He became involved with campus life early in his college career, first running for a position as Student Assembly Senator and now serving his second term as the student representative on the college's Board of Trustees.

He is president of the college's chapter of the honor society Phi Theta Kappa, citing his "rich appreciation for academic excellence." In his leadership role at PTK, he was inspired by SUNY Broome alumna Heather Coggins, whom he also served with on Student Assembly and in the Women's Discussion Group. Following Heather's lead, he's now also the Women's Discussion Group president; it turns out that Orion is one of the only members from the previous year, which provides the group with continuity.

"I really feel that diversity and inclusion are important to the community," he said.

He also pursues his passion for civic engagement outside the campus, in a variety of progressive causes, including volunteer work for political campaigns and marshalling marches for Citizen Action. This year, though, he's focused more on school.

How does he balance his pursuit of academic excellence with his passion for civic and campus engagement? While he takes his math classes on campus, he takes his paralegal courses online, giving him the flexibility he needs with his schedule.

"I strategically plan my course load and my course work," said Barber, who also works as a tutor in the college's Math Lab. "A lot of my weekends I'm looking to my academic self."

Calculating the future

When it comes to rewarding future careers, there is more than one answer for math majors: professor, researcher, big data scientist – the possibilities might not technically be infinite, but they're a rather large set.

"One of the things I love about math is it's such a broad topic that I'm comfortable not knowing exactly where my career path will be," Orion reflected.

He dares to dream big: his ultimate transfer school is the University of Oxford in Great Britain, the oldest university in the entire English-speaking world. He has a deep appreciation for British culture as well as its healthcare system, fostered during an applied learning trip he took to Cornwall in the summer of 2016. While there, he interned for a lighthouse and heritage center – a museum, as it happens, although it's fun to say that he worked for a lighthouse attendant.

Another long-term dream: return to France, where he did a brief exchange student program in high school. Wherever he ends up, Orion will enjoy the calculations and the challenge.

For his peers who are feeling frustrated by equations, this math lab tutor has the following advice: “Change the approach.” Instead of focusing on your fear or discomfort with math, embrace the realization that math is logical and factual – even if it doesn’t seem to make immediate sense in the context of your assignment.

“Let’s give it a look and see where we end up,” he said.

Holiday cheer: BECA club adopts a family and is accepting gift donations

November 28, 2017

Buzz

BECA adopted a family this holiday season and is collecting gift donations

BECA adopted a family this holiday season and is collecting gift donations

SUNY Broome's Broome Educators of Children Association club has chosen to participate in the Family Enrichment Network's Adopt-a-Family program this holiday season.

Club members "adopted" a family of five, and created a bulletin board with the children's wants and needs in T-204. There will be a "giving tree" of labeled tags for folks to grab if they would like to participate in the gift-giving program. Additional items for stockings, etc., are also appreciated and you don't have to stick to the suggestions in the tags.

Donations must be made by Dec. 7 so that the club can deliver the gifts by Dec. 8. Gifts should be unwrapped.

Thank you for your efforts in spreading the holiday cheer!

BECA is adopting a family of five this holiday season and has set up a bulletin board for gift requests.

Women's Discussion Group Student Club donates books to Women's Prison Book Project

November 28, 2017

Buzz

In celebration of Global Giving Day, SUNY Broome's Women's Discussion Group, the sole student group focusing on women's issues, donated **148 books** to the Women's Prison Book Project on Nov. 28, 2017.

Faculty Adviser, Professor I.J. Byrnes of the Philosophy Program, noted that the project was inspired by reading *Orange is the New Black* by Piper Kerman, a non-fiction memoir by the author who spent a year in prison on drug charges.

Club President Orion Barber, VP Dawn Powell, VP Kevin Carr and Faculty Adviser Professor I.J. Byrnes decided to support this literary and rehabilitative project in light of the skyrocketing increase of the number of women behind bars since the 1980's, the problems faced by the children of single women in jail and the correlation of imprisonment and mental health and addiction issues among women inmates.

Chapter President Barber said, "On Giving Tuesday, I am proud to support the Women's Prison Book Project. Prisons today greatly lack the ability to rehabilitate inmates. Literacy is just one of the important skills to practice while incarcerated."

VP Dawn Shefler noted, "Books have always been a refuge for me."

The SUNY Broome Women's Discussion Group would like to acknowledge and thank the book donors involved in this project:

Professor I.J. Byrnes

Adjunct Faculty Member and Instructional Designer Tera Doty-Blance

Professor Robert Wood

President Orion Barber

VP Dawn Shefler

The SUNY Broome Women's Discussion Group would also like to thank the following campus community members for their help and support with this project:

Talia Horowitz

Cheryl Sullivan

Dean and Associate VP Michael Kinney

Slam dunk: Brady prepares for his future with Sport Studies

November 28, 2017
Featured News

Brady Harrington

Brady Harrington

When he came to SUNY Broome, Brady Harrington initially wasn't sure about his path, but he knew his end goal: a career centered on sports.

Sports are a lifelong passion for the Whitney Point native, who plays on both the college's basketball and baseball teams. At first, he checked out the Sports Management program, but found that the business focus didn't suit him.

His coach suggested another option: Sport Studies. It proved to be a home run.

"It was a lot of stuff I was very interested in — sports psychology, team sports classes," said Harrington, now a second-year student. "I'm starting to realize the opportunities I can pursue with this degree."

The Sport Studies A.S. degree program is relatively new to SUNY Broome, having been introduced during the Fall 2016 semester. The program combines general education and physical education, and can lead to careers in physical education, coaching, exercise science, athletic training, kinesiology and more.

Seamless transfer agreements are in place for both SUNY Cortland and

SUNY Brockport, making sure that all the students' credits count toward a bachelor's degree.

Currently, Team Sports is one of Brady's favorite classes. Not only does it cover the basics of baseball, football, volleyball and basketball, but students learn how to teach these sports in a classroom setting. In a recent Adventure Activities class, Brady was tasked to teach his peers the ins and outs of a dodgeball game, while his instructor observed and evaluated his teaching style.

Professor Sandy Alter-Ballard, chair of the program, played an important role in guiding Brady's academic path, he said. He also has Professor Robert Krowiak for three classes this semester, and enjoys them all.

"He's a great professor and I'm learning a lot from him," Harrington said.

The program also carries opportunities for applied learning – and community service. As part of the program, Brady is volunteering at Sarah Jane Johnson Memorial United Methodist Church's George F. Johnson Dream Center in Johnson City, where he coaches basketball. The after-school program is meant to give local children an alternative to the street.

"I'd like to do it for more hours," he said of his volunteer work. "Being a basketball coach is one of my options."

Of course, there are other options that intrigue him as well, such as sports psychology and teaching. He is still exploring his options, and expects to firm up plans once he transfers to either Cortland or Brockport.

SUNY Broome was the local option for Harrington, and commuting allowed him to avoid student debt and save money for his eventual transfer. Small class sizes and rigorous academics also make the college worthwhile – and provide opportunities to connect with other students in your program.

"I learned a lot and not just in terms of education, but basic life and social skills. I met a lot of great people," said Harrington, noting that he had a chance to network with his instructors. "I definitely learned a lot and grew a lot as a person."

Fast Forward instructors proudly display classroom signs

Binghamton High School teacher Mike Pourby and his Fast Forward classroom

Fast Forward instructor Amber Henyan of Chenango Valley displays her classroom plaque

Binghamton High School teacher Mike Pourby and his Fast Forward classroom

Fast Forward held its annual Professional Development on Tuesday, Nov. 14. More than 100 college-credentialed instructors were on campus for a welcome and program update session, followed by discipline-specific break out sessions. All Fast Forward instructors were given a SUNY Broome Fast Forward classroom sign as well. The feedback has been overwhelmingly positive. The sign is setting apart their classroom from others, representing what is happening on the inside: college!

Numerous national and local research studies show that programs like Fast Forward increase high school graduation rates, improve college readiness and provide gains in college access, persistence and completion for a diverse group of students. We have proven this right here at SUNY Broome as well. Thank you to all involved for your partnership. Together, we are making a real difference!

Dec. 10 concert: Holiday music, ancient and modern

November 29, 2017

Buzz

Christmas tree

The SUNY Performing Arts Department presents its College Choir in a concert of “Holiday Music – Ancient and Modern” at 3 p.m. Sunday, Dec. 10, in the Sanctuary of Vestal United Methodist Church, 328 Main St., Vestal.

Directed by James Gleason, the choir will present two very different settings of a Christmas Mass. One, composed in 1694, is the Messe de Minuit pour Noël (Midnight Mass for Christmas) based on ancient French Christmas carols, by Marc-Antoine Charpentier (1637 – 1704). This work will be accompanied by orchestra, soloists, two recorders and feature Dan Rosenau on the pipe organ. The other Christmas Mass was composed in 2014: The Little Jazz Mass by Bob Chilcott. This work will be accompanied by Jazz Combo and feature Mike Dubaniewicz on saxophone.

The concert will also feature several “lesser known” holiday carols.

Tickets are \$10 and will be available at the door. All students will be admitted free.

For more information, contact the SUNY Broome Music Program at 607-778-5061 or email the director at Jpgleason@stny.rr.com.

Documentary screening: See 'The Invisible War' on Dec. 1

November 29, 2017

Buzz

The SUNY Broome Women in Communications and Commercial Photography group will present a special screening of the Peabody and Emmy award-winning documentary “The Invisible War” at 5 p.m. Friday, Dec. 1, in Titchener 102.

This 2012 film by Kirby Dick, Amy Ziering and Tanner King Barklow explores the pervasive problem of sexual assault in the U.S. Military. The film screening will be followed by a group discussion.

The best photography work from SUNY Broome student photographers is on display for just a few hours longer at the art gallery in the Library.

A Closing Reception for “Reflections,” the Fall 2017 SUNY Broome Student Photo show, is scheduled for 6 to 8 p.m. Thursday, Nov. 30, in the Art Gallery on the library’s main floor.

“Reflections” has been on display through the month of November and features a creative variety of works by SUNY Broome student photographers. The work includes both color and black and white photography, experimental work and photographs taken with both 35mm film and digital cameras.

Tell it to Dr. Carol on Dec. 13

November 29, 2017

Buzz

Express yourself! Dr. Carol Ross, Vice President for Student Development and Chief Diversity Officer, wants to hear from you — happy thoughts, concerns or challenges during the course of the semester.

The event runs from 12 to 1 p.m. Wednesday, Dec. 13, in the Student Center.

Fire hydrant testing scheduled for Dec. 1

November 29, 2017

Buzz

Fire hydrant testing in the vicinity of the new Calice Advanced Manufacturing Center will take place on Friday morning beginning at 6:30 a.m. Some campus buildings may experience a discoloration of water and a lower water pressure as a result of this testing.

If anyone has any questions, please contact David Ligeikis at 607 765-9710.

#Broome24 update: Wow! We are speechless

November 29, 2017

Buzz

Thank you to everyone who participated in #Broome24!

Thank you to everyone who participated in #Broome24!

Our donor numbers and gifts are coming in, and we should have final figures within the week. The response was incredible! After 24 hours, numerous volunteers, several social media posts, lots of pizza, baked goods, coffee, student events, interviews and laughs, we have achieved and surpassed our goal.

With more than **355 donors** and gifts totaling more than **\$73,000**, the third annual SUNY Broome 24 Hours of Giving Day has exceeded all expectations! And on behalf of our students, we would like to Thank You, Thank You, Thank You! Your support is very much appreciated and truly makes a difference.

Check out our results so far: www.sunybroome.edu/broome24

From Associate's to Pharm.D.: Agreement gives SUNY Broome students the opportunity to transfer to BU's School of Pharmacy

Three SUNY Broome students already have applied to Binghamton University's new School of Pharmacy and Pharmaceutical Sciences – and that number is expected to rise, thanks to a new transfer agreement between the two schools.

SUNY Broome President Kevin E. Drumm and Binghamton University President Harvey Stenger announced this latest partnership on Nov. 28 during an event in the Decker Health Sciences Building. While SUNY Broome has multiple transfer agreements with Binghamton University at the undergraduate level, this initiative marks the first time the two institutions will offer a direct pathway to a doctoral degree program – in this case, the Doctor of Pharmacy, or PharmD, degree.

"SUNY Broome has the largest health sciences division of all the SUNY community colleges," Dr. Drumm said. "Pharmacy fits right in and it's a highly paid and growing career. I want to emphasize the incredible opportunity this is for students. Binghamton University has long been the top destination for our students and this agreement caps a long-standing tradition for both of us."

"It's always a pleasure to announce and begin a new program that will have a strong impact on our students," Dr. Stenger said. "Many of these students will be local students from our hometown and that makes it extra special, and another exciting program at the leading edge with our brother school at SUNY Broome."

Students will be able to learn more about this program during a Common Hour presentation at 11 a.m. Nov. 30 in Decker Health Sciences Room 213 on the SUNY Broome campus.

Binghamton University is currently constructing the pharmacy school in Johnson City, and admitted their first class in the program this past August. The new pharmacy building is expected to open in the summer of 2018.

How it works

Eight qualified SUNY Broome students enrolled in the Health Studies or the Liberal Arts in Science degree programs will be guaranteed admission each year under the terms of the articulation agreement, although Health Studies students will need to take a few additional classes beyond their associate degree requirements.

Eligible students need to complete all prerequisites to be enrolled. AP credit and dual-credit courses while in high school may fulfill prerequisite courses at the discretion of the University. Students must also submit an online application to the Pharmacy College Application Service (PharmCAS) no later than Jan. 1 of the year they plan to enroll in the School of Pharmacy and Pharmaceutical Sciences, or prior to Sept. 1 if they're opting for an early decision.

Eligible students must also achieve a minimum math and science grade point average (GPA) of 3.0 and a minimum composite score of 50 on the Pharmacy College Admission Test (PCAT) on or before the January test date prior to the academic year for which they are seeking enrollment.

Students who don't meet the above criteria still remain eligible to apply for admission to the school via PharmCAS, provided that they complete the prerequisite courses, achieve the minimum cumulative and math/science GPAs of 2.75, complete the PCAT and submit all required application materials by March 1 of the intended year of entry.

Career outlook

Pharmacists do more than dispense drugs at the local store, noted School of Pharmacy Founding Dean Gloria Meredith. These highly educated professionals work with patients in a wide range of settings, and are increasingly in demand – particularly in Upstate New York, due to an aging population.

Nationally, the U.S. Bureau of Labor Statistics projects that employment of pharmacists will grow by 6 percent over the next decade.

As with other healthcare careers, SUNY Broome students have long been interested in pharmacy. The opening of the School of Pharmacy gives them options and opportunities far closer to home than other schools, all within the acclaimed SUNY system, noted SUNY Broome Vice President and Chief Academic Officer Francis Battisti.

He likened transfer agreements such as this one to the Saturn V rocket, which used rockets boosters in various stages to send a capsule into space.

“SUNY Broome is the first stage, getting you started on your trajectory and a good part of the way there. Eventually, though, you need that second stage to kick in – your transfer school. And for some careers, you need that final third stage – graduate school, or internships, or another form of applied learning,” Dr. Battisti explained. “For so many of our students, that essential ‘second stage’ is Binghamton University.”

CLT Club Christmas Cookie Bake Sale

November 29, 2017

Buzz

Christmas tree

The CLT Club is now taking orders for the annual Christmas Cookie Bake Sale. They will be selling one-pound boxes of assorted cookies lovingly hand made by the CLT Christmas elves.

Each box will be \$10 payable at pickup on Monday, December 4, at 10 a.m. on the Decker Building main floor. Orders can be placed by emailing Amy Cook at cookam@sunybroome.edu or by order sheet at Karoline's desk in D217. Limited quantities, so order early!

Please donate supplies: Health for Haiti really needs your help!

November 30, 2017

Buzz

A clinic in the Health for Haiti program

Health for Haiti desperately needs over-the-counter medical supplies to run our medical clinics in January 2018. If each member of our SUNY Broome community brought in one item, we would be well stocked for our clinics.

We need the following items:

- Aspirin, Tylenol (Adult and Child)
- Cough/cold syrups (Adult and Child)
- Vitamins (Adult and Child)
- Multi-vitamins, Iron, C, D and Calcium
- Ointments
- Neosporin, Hydrocortisone, Antifungal
- Antacids
- Pedialyte Powder

Donation boxes are located in the Administrative Offices (DH-217, NSC-207, B-104, TH-210, W-107, SS-210) and the Library Circulation Desk. Donation boxes

will be picked up on Thursday, Dec. 14.

Thank you for your continued support!

Co-ed Ultimate Frisbee Competition on Dec. 9

November 30, 2017

Buzz

Compete in the Winter Co-ed Ultimate Frisbee Competition at 12 p.m. Dec. 9 in the Student Center gyms!

This student-run event is locally sponsored. There will be prizes, free food and games provided.

We are looking for teams of 5 to 7 players, with a minimum of two girls per team. Each team will receive free t-shirts! We encourage faculty, SUNY Broome and Binghamton University students to participate!

To sign up, email rmirch55@gmail.com and submit your team name, members and shirt sizes.

First Friday event at SUNY Broome's new Collaboration Lab

November 30, 2017

Buzz

You're invited to a celebration of innovation at SUNY Broome's Collaboration Lab on First Friday, Dec. 1, in downtown Binghamton.

The Collaboration Lab is located on the top floor of the Koffman Southern Tier Incubator in downtown Binghamton, at the corner of Hawley and Carroll streets. Its aim is to support student entrepreneurship, and the space is equipped to best inspire innovative brainstorming, collaboration and the launch of outcome-oriented projects and services.

From 6 to 9 p.m., visit the Collaboration Lab for First Friday exhibits and presentations featuring the work of SUNY Broome students, and community entrepreneurs who got their start through Continuing Education's Entrepreneurial Assistance Program.

The Innovation Celebration will coincide with Binghamton University's ART@INK, which will take place on the ground floor of the incubator.

Refreshments will be served during the First Friday event. Parking is available in the incubator lot.

The Mildred Faulkner Truman Foundation of Owego awards \$15,000 to the Broome Community College Foundation in Support of Tioga County students.

This funding provides need-based financial support to Tioga County students attending SUNY Broome for the 2017-2018 academic year. There are currently 428 students from Tioga County attending SUNY Broome for the fall 2017 semester.

The Truman Foundation has generously supported Tioga County students since 1987. The Mildred Faulkner Truman Foundation has also provided ongoing support for Tioga County students at the SUNY Broome Owego satellite campus located in the Ronald E. Dougherty Office Building in Owego. Courses at the satellite campus are open to all matriculated and non-matriculated, full-time and part-time students.

The SUNY Broome campus community thanks the Truman Foundation for its longstanding generous support of Tioga County students.

“We are so grateful for partners such as the Mildred Faulkner Truman Foundation, who enable so many students to pursue their college dreams,” said SUNY Broome President Kevin E. Drumm. “We draw many students from the Tioga County area. Being able to pursue higher education not only improves their own lives, but also their communities, which benefit from having a trained and educated workforce.”

Think Spring: Open Registration Week runs from Jan. 16 through 19

November 30, 2017

Buzz

It's never too early to think spring — spring semester, that is! Spring classes start Jan. 29, 2018.
