# Sign up for the Rape Aggression Defense (RAD) Self Defense Course this summer

June 3, 2018

Buzz

SUNY Broome's Public Safety and Criminal Justice & Emergency Services Department are sponsoring a Rape Aggression Defense (RAD) Course for female students, faculty and staff. RAD is a realistic self-defense tactics and techniques training program for women. This program includes lecture, discussion and physical resistance strategies taught by certified RAD Instructors.

The course will be held in the Baldwin Gym beginning on Monday, July 9, 2018, from 4:30 to 6 p.m. and will run for four weeks. Class dates are July 9, 11, 16, 18, 23, 25, 30, and August 1.

Class size is limited and acceptance in the class will be on a first-come, first-serve basis. A \$10 fee will be collected upon registration. This fee will be returned upon completion of the course. In order to complete the course, participants must attend at least 90% of the course.

To sign up for the course, contact Public Safety in person. The Public Safety Annex is open Monday through Friday from 9 a.m. to 5 p.m.

# Attention, job seekers: NYS Accelerated Apprenticeship Program in Tioga County

June 4, 2018

Buzz

Attention, job seekers! Tioga County Economic Development and Planning (TEAM Tioga) in partnership with the Tioga County Career Center and the New York State Department of Labor is excited to announce a new workforce development and training program initiative in Tioga County.

The Accelerated Apprenticeship Program (AAP) offers guaranteed direct hire manufacturing jobs in Tioga and surrounding counties, and six weeks of paid training for selected participants. The starting wage during the program is \$13 per hour, and no prior experience is necessary. The successful completion of the program will allow participants to continue in a four-year NYS Apprenticeship program with built-in pay increases based on performance.

“We are very excited to have this opportunity here in Tioga County. The Accelerated Apprenticeship Program is truly a win-win for our employers and our workforce,” said Brittany Woodburn with Tioga County Economic Development and Planning.

This type of accelerated program has run successfully in the Syracuse area twice this past year, with more than 20 apprentices being hired into careers in advanced manufacturing. The apprenticeship program will prepare participants for several advanced manufacturing positions, including CNC machinist, maintenance mechanic and industrial manufacturing

technician. Manufacturers participating in the program include Applied Technology

Manufacturing Corporation, Crowley Fabricating and Machining Co. Inc., Crown Cork and Seal, Granite Works LLC and The Wagner Companies.

The training will take place at the Owego Apalachin Central School District STEAM facility located at 5 Sheldon Guile Boulevard in Owego in partnership with SUNY Broome who will provide both the curriculum and instructor for the program.

The Accelerated Apprenticeship Program in Tioga County is currently accepting applications for the program. There is no fee to participate in the program. Interested job seekers can apply online at <https://www.tiogacountyny.com/programs-agencies/accelerated-apprenticeshipprogram/>. Applications are due by June 16. Training will begin in mid-July and concludes in August. Successful candidates will begin full-time employment at the end of August.

TEAM Tioga, Tioga County Career Center, NYS Department of Labor, Owego Apalachin Central School District, SUNY Broome, Manufacturer Association of Central NY, American Apprenticeship Initiative, Workforce Development Institute, Jobs for the Future, and Working Solutions, coordinate this unique collaboration. The training program is an effort of the Manufacturers Alliance Intermediary Apprenticeship Program.

## Dining Hall summer hours

June 4, 2018

Buzz

Starting June 4, the main café will be open from 9:30 a.m. to 2 p.m. Monday through Friday, throughout the summer.

While all stations will not be open due to the reduced traffic, the Dining Hall will have its Saute & Sizzle grill menu available, as well as limited breakfast, deli and salad offerings. They also have plenty of cold drinks, hot coffee and snacks available.

American Dining Creations encourages all students, faculty and staff to come down for breakfast or lunch, and check out their Fresh Difference local/in-season features! They will also be posting regularly on our Facebook page at [www.facebook.com/ADCBroome](http://www.facebook.com/ADCBroome).

# Senior Picnic & Fun Fest to be held on campus June 20

June 4, 2018  
Buzz

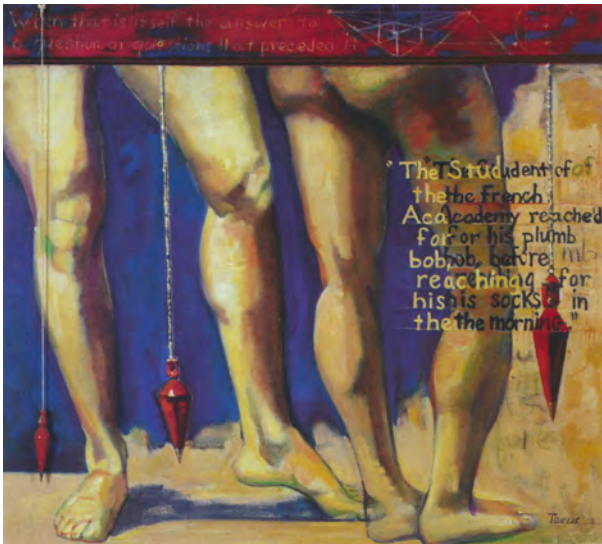

The Senior Picnic and Fun Fest will be held on the SUNY Broome campus Wednesday, June 20, 2018. Lunch will be served at noon at a cost of \$4 per person. Tickets are available at Continuing Education in the Wales Building Room 115. Please purchase your tickets by 11 a.m. on Tuesday, June 19, 2018. The meal will include:

- Barbecue Chicken Sandwich
- Red Potato Salad
- Baked Beans
- Strawberry Shortcake
- Bottled Water

# SUNY Broome to host exhibit of Michael Tanzer, accept donation of Tanzer painting

June 4, 2018  
Featured News

Join SUNY Broome and the Broome Community College Foundation for the opening of an exhibit featuring the work of painter, teacher and social activist Michael Tanzer.

The exhibit will run from June 8 through July 25 at the Gallery @ SUNY Broome, located on the first floor of the library. A reception will be held from 3 to 6 p.m. June 8, with a short ceremony at 4:45 p.m.

During the reception, SUNY Broome alumni Conrad and Lorna Steigenwald will donate a large Tanzer painting to the college.

A native of the Bronx, Tanzer studied for a year and a half at the prestigious Frank Reilly School of Art in New York. He worked in a variety of media, from oil painting to ceramics, and explored a variety of subject matter, from classical nudes, street life and tattoos to Franz Kafka and finally Asian themes.

He and his family moved to Binghamton in 1972. Tanzer taught studio painting and Asian art history at SUNY Broome from 1991 until his passing from cancer in 2000.

# SUNY Broome students and alumni hired at BAE Systems

June 4, 2018

Buzz

Hornets are making their nest, professionally speaking, at BAE Systems. Out of 33 recent new hires in various manufacturing and test positions at the company, 19 are SUNY Broome students or recent graduates!

Team members from BAE Systems Operations came in for their second annual Spring On-Campus Recruitment Event on April 12. They conducted an information session during Common Hour to introduce students to BAE Systems, as well as discuss what makes an ideal job candidate. Then, they interviewed 26 of our Engineering Technologies and Engineering Science students in the Applied Learning & Career Center in the afternoon.

The event was orchestrated as a collaboration between faculty in those programs, BAE team members and the ALCC.

# On-campus construction activities for the week of June 4, 2018

June 4, 2018  
Buzz

*Work has begun at the former Carnegie Library site in Binghamton.*

Work has begun at the former Carnegie Library site in Binghamton.

- The construction fence is in place.
- The remaining asbestos abatement work is nearly complete. (All windows have been removed.)
- Interior demolition (both general construction and electrical) has begun.
- Temporary power panels have been set (awaiting NYSEG).
- Interior finish wood has been salvaged.

As always, if anyone has any questions, please do not hesitate to contact David Ligeikis at 607-765-9710.

## Calice Advanced Manufacturing Center

- Shipments of both casework and fire-rated glass are arriving on site.
- Our HVAC contractor will be commencing start-ups of the HVAC equipment.
- Our electrical contractor will be starting the commissioning of lighting and fixtures.
- Work has begun/is continuing in the data closets.
- Connector curtain wall windows (for the east and west curtain walls) will be delivered on Thursday. Installation should take approximately two days.
- Installation of the exterior metal panels continues.
- Final grading (sub base) for paver installation is nearing completion.
- The south entrance canopy has been completed (with the signed steel beam from the “topping off” event very visible).
- Sidewalk construction and final grading/seeding of the Quad between Calice and the Natural Science Center has been completed.
- VCT (floor tile) installation continues.

## Culinary Arts Center (Carnegie)

Work has begun at the former Carnegie Library site in Binghamton.

# Building his Bachelor's: Mike pursues a degree in Civil Engineering Technology while balancing career and family

June 5, 2018  
Featured News

*Mike Berry*

Mike Berry

Juggling a career, family life and the pursuit of a college degree can involve acrobatics of a sort and many long days – all for the most worthwhile of causes.

Take Mike Berry, a senior project manager for a construction firm and the father of two young children. With nearly 20 years of experience in the construction industry, he decided to go back to school and pursue a long-deferred bachelor's degree in Civil Engineering Technology through SUNY Polytechnic Institute.

In pursuing his bachelor's degree, he is able to take classes at other colleges and universities. He chose SUNY Broome for its strong Civil Engineering Technology degree program, as well as its proximity to one of the projects he is shepherding: the massive reconstruction of the Binghamton-Johnson City joint sewage treatment plant.

He has enjoyed his SUNY Broome experience, but there have been some stressful days – such as the one when he had a mandatory work meeting in Lock

Haven, Pa., on the same day as an exam. He ended up taking the test, jumping in the car and driving three hours to the meeting, only to turn around and drive two hours back home — a rather long day, but one in which all his many obligations were met.

Despite the juggling act, coming back to school later in life has its rewards.

“Returning to school after working in the industry, I tend to enjoy it more, to grasp it more,” he reflected. “What you're learning makes sense, and you want to focus more.”

## **Coming back to school**

A native of Elmira, Berry earned an Associate's degree in Mathematics and Science from Onondaga Community College in 1997 and then transferred to SUNY Poly, where he continued his studies but didn't complete his bachelor's in Civil Engineering Technology. He played varsity baseball at both schools, and was hired at Welliver in 1999 after an internship during his senior year.

The company encouraged him to continue his education and he took a few courses to finish his degree, but soon became too busy. The last blow to his motivation came when he took a Calculus II course at Ithaca College, earning only a C-minus, a grade that wouldn't transfer to his end degree.

“My initiative went down the tubes,” he said.

His education didn't end, however. He went on to earn multiple certifications, including in Leadership in Energy and Environmental Design (LEED) and as a Certified Healthcare Constructor (CHC). He has worked on a wide variety of projects, from a new hospital in the Corning area to a cocoa plant in Hazelton, two residential initiatives at Cornell University and more.

He took his first SUNY Broome class in 2006: reinforced concrete design. Then, his next project took him out to Hazelton, Pa., and school was off the table until 2017.

“I just sat back one day and said, ‘I guess you got to try it,’” he said of his decision to complete his degree. “I dove in and I've had a lot of support around me. I just pushed on and I got through it. It was very difficult at times — don't get me wrong.”

He has achieved a GPA of 4.0 at Broome, with a few more classes to go. At 41, he's older than the traditional college student, but never felt set apart; instead, he has forged connections with both his professors and his fellow students.

Professors he connected with include Dr. Kelli Ligeikis, now provost at SUNY Delhi, and hydraulics instructor Tom Sullivan. Professor Joe DeAngelo also provided essential guidance on course options.

Connection goes both ways, said Berry, noting that students who are attentive and show initiative prime themselves for success. “There are students who truly want to be there and learn, and that goes a long way with professors,” he observed.

He has invited professors to observe work sites, and encouraged his younger peers to pursue careers in an industry he has called home for two decades. And SUNY Broome has rubbed off in other ways, too, in addition to bolstering his confidence as a student: The information and skills he masters in the classroom have had a positive impact on his work.

He finds himself referring to his coursework during the course of his job, such as designing concrete piles. Professor Tom Myers' soil mechanics course was both thorough and helpful in teaching the theory behind the soil and foundation design relative to geotechnical engineering,

Berry explained.

“The people and the professors have been very helpful in getting me back in the groove of things. Here, everyone is very personable,” he said. “I’ve always been a one-on-one learner; I don’t want the 50 to 60 students in a lecture hall.”

# Health for Haiti update: Clean water changes everything

June 5, 2018  
Featured News

*Residents of Grande Saline carrying water*

By Professor Jennifer Musa

The World Health Organization estimates that hundreds of millions of people in the world do not have access to clean water, and that every year over a half million people die from diseases related to drinking dirty water.

Since March 2015, SUNY Broome's Health for Haiti program has been providing clean drinking water for hundreds of families in Grande Saline, Haiti. This clean water effort has been a true collaboration between Health for Haiti and the community in Grande Saline.

For this community, the local river is the only source of water. The Health for Haiti water system filters the water from the local river, making it safe to drink. The system was donated by the Pall Corporation in Cortland, New York, and ongoing technical support is provided by their engineers (assisted by SUNY Broome students). Clean water means better health for the families living in this cholera-affected area.

SUNY Broome student Grace Muggeo works with a Pall engineer on a water filtration system in Grande Saline.

Water source in Grande Saline.

Filtered water versus unfiltered water in Grande Saline

Last week, more than 14,400 gallons of safe drinking

water were distributed to families in the community. Health for Haiti donations help to provide a salary for the local operators who run the system each day and to purchase gas to power the filtration system. Clean water is fundamental to good health. Access to clean water has changed and saved lives.

This year, we hope to build on this success and change the system, which currently relies on gas, to solar power. The system will be less expensive and more efficient if the community does not have to purchase gas and rely on generators. Gas is expensive and hard to obtain, but sunshine is free and abundant.

Thank you for your past support of our clean water project. Please consider a donation to help purchase solar panels and batteries so that we can make this

system more sustainable for the community. [Click here](#) from more information on our "Solar for Water" initiative.

# Water service in Decker on June 7

## Fox family on campus is being relocated

June 7, 2018  
Buzz

*Red fox kits. Photo by U.S. Fish and Wildlife Service.*

Red fox kits. Photo by U.S. Fish and Wildlife Service.

A family of foxes has recently taken up residence under the Business Building gazebo.

The Office of Public Safety has brought in a wildlife expert to safely and humanely relocate the foxes, both for the campus' safety and their own. Please avoid the gazebo area while the expert is working on relocating them.

As part of our campus does include a nature preserve, wildlife isn't uncommon at SUNY Broome. We encourage the campus community to treat the wildlife with all due respect and consideration (no selfies, please!), and contact Public Safety if any give cause for concern.

## Mark your calendars: CJES career expo on Sept. 19

June 7, 2018

Buzz

SUNY Broome's Applied Learning & Career Center and the Criminal Justice & Emergency Services department are collaborating once again to host our annual CJES Career Preparedness Expo on **Wednesday, Sept. 19, from 11 a.m. to 1 p.m. in the Applied Technology Building atrium.**

This is a great opportunity for students and law enforcement/emergency service agencies to connect and share information about potential careers!

# Professor Zeggert accepted into the 83rd annual National Exhibition of the CAA

June 7, 2018  
Buzz

*Professor David Zeggert's oil portrait of John Lennon*

Professor David Zeggert's oil portrait of John Lennon

Professor David Zeggert's oil portrait of John Lennon has been accepted for inclusion in the 83rd annual National Exhibition of the Cooperstown Art Association.

This year, 496 entries were submitted and the Juror of Selection, Yulia Hanansen, had a difficult task in choosing 130 works to create a diverse and exciting exhibit. The exhibit is on display from July 13 through Aug. 17. A short gallery talk and tour will be given by our juror at 4 p.m. July 13, just before the start of the reception. ([www.cooperstownart.com](http://www.cooperstownart.com))

Professor Zeggert is a member of the SUNY Broome Art and Design department and teaches drawing, painting and illustration.

# Designing the future: Abigail finds a new career path in Civil Engineering Technology

June 7, 2018  
Featured News

*Abigail Hogan*

Abigail Hogan

Abigail Hogan did all the right things, but she wanted a different future. She attended SUNY Oneonta right after high school, earning a bachelor's degree in biology in 2016. That summer, she took a job running environmental tests with Broome County's engineering department. While there, she worked alongside the engineering interns and found herself intrigued by their jobs. A future spent running lab tests just didn't draw the same interest as the prospect of design.

So, she headed back to college – this time to SUNY Broome, where she earned a degree in Civil Engineering Technology in just one year.

"I loved it! It was awesome," Hogan said of the program, which she graduated in May 2017. "Joe DeAngelo did a great job allowing people to graduate on time or earlier. He and all the other professors did a great job of allowing us to get our degree done on time."

She took classes during Winter Term, and loaded up on courses during the fall and spring semesters to finish in a single year. After graduating, she landed a job in the City of Binghamton's engineering department, where you can find her in the field, dealing with construction inspections and related work.

She is also pursuing her four-year degree in Civil Engineering Technology through Old Dominion University, where she takes online courses. "I really like anything environmental. It might sound a little weird, but I really like rainwater and stormwater," Hogan said of her interests. "I want to get into that, doing design work. Engineering was a good way to pursue that. Engineering gives you the opportunity to express your ideas more."

Learn more about Civil Engineering Technology at SUNY Broome.

Apply today.

## **A pipeline to rewarding careers**

SUNY Broome's Engineering Technologies programs are among the college's oldest, dating back to the 1947 opening of Binghamton's Institute of Applied Arts and Sciences, one of five such institutes and the forerunner to the community college system. The programs are both academically rigorous and hands-on, and students spend approximately half their time working in the field in addition to classroom time spent learning theory and concepts.

Another benefit: The program has an enviable 100 percent employment rate for students transitioning to the work world. Many local companies and the state Department of Transportation also provide Tech students with internship and summer job opportunities that can also ultimately lead to employment.

Abigail said she and other students learned about employment opportunities regularly while at SUNY Broome.

"It was definitely a lot better than when I was coming out of Oneonta. I think this program does an awesome job of getting people jobs," she said.

While she was initially nervous about being one of the few women in the field, she soon discovered that she had little cause to be worried. Contractors are eager to work with you and help you develop knowledge of the field, she found.

"I think it gives you a lot more opportunity than a typical two-year degree will give you," she said of the CET program. "People are very willing to help you."

If she has any regrets, maybe there is just one: that she didn't go to SUNY Broome first. Her father had wanted her to attend her local community college first, but she preferred to go away for school.

"This definitely would have been a better option, coming here. I probably wouldn't have wasted a couple of years and thousands of dollars," she reflected.

# Open Registration/College Readiness Weeks: Schedule and Information

# A life in art: SUNY Broome hosts Michael Tanzer exhibit, accepts donated painting

June 11, 2018  
Featured News

*SUNY Broome Executive Vice President and Chief Academic Officer Francis Battisti and alumni Lorna and Conrad Steigerwald unveil a Michael Tanzer painting that the couple donated to the college.*

SUNY Broome Executive Vice President and Chief Academic Officer Francis Battisti and alumni Lorna and Conrad Steigerwald unveil a Michael Tanzer painting that the couple donated to the college.

SUNY Broome alumni and avid collectors of Tanzer's work, donated the oil painting to the college. Aided by Dr. Battisti, the Steigerwalds pulled off the black sheet veiling the piece during the opening of an exhibit of Tanzer's work in the Gallery @ SUNY Broome on June 8.

A native of the Bronx, Michael Tanzer had a deep love of art in all its manifestations. He studied for a year and a half at the prestigious Frank Reilly School of Art in New York, and worked in a variety of media, from oil painting to ceramics, screen prints and etchings. He once dreamed of covering the City of Binghamton in murals – which, in fact, the Binghamton landscape painting might once have been.

Ben Tanzer discusses his father's work.

and another of jugglers along the Susquehanna River that is part of the Gallery exhibit.

"He had an obsession with performers. He loved sideshows, he loved freaks, he loved outcasts," his son, Ben Tanzer, explained to visitors during the exhibit opening.

The scene has a slight haze to it, perhaps from the summer heat. The Susquehanna River flows lazily under the Exchange Street bridge, leafed-out trees and the sky reflected in its surface. The occasional car travels the road beside the river, as rooftops shine in the sunlight.

Michael Tanzer preserved this Binghamton landscape from the 1970s in a 6-foot by 8-foot oil painting. And now, it's been added to SUNY Broome's permanent collection – a fitting tribute for a beloved artist and professor, who taught Asian art history and studio painting from 1991 until his death from cancer.

"While Michael Tanzer passed away in 2000 – all too soon – his legacy continues in his art, his curiosity and his enthusiasm and generosity," said Executive Vice President and Chief Academic Officer Francis Battisti. "He truly made a difference in the world of art and beyond, and touched the lives of many of our students and alumni."

Conrad and Lorna Steigerwald,

The Tanzer family and the Steigerwalds pose for a photo at the opening of the Michael Tanzer exhibit in the Gallery

His family came to the area in the 1970s – which was when the

landscape painting was made and, coincidentally, when his family met the Steigerwalds. Michael Tanzer taught painting and drawing at the Roberson center in the 1970s and 1980s, before joining the Fine Arts faculty at SUNY Broome. He also taught in many other settings, including a minimum-security prison for young men, public school classrooms and his own studio, where he invited students and other artists to join him.

"It always struck me how engaging he was and how he really welcomed questions about his work," said Dr. Battisti, who observed several of Tanzer's classes.

His art explored a variety of subject matter, from classical nudes, street life and tattoos to Franz Kafka and Asian themes. SUNY Broome has two other Tanzer paintings in its possession, a scene with a dancing bear mounted in Titchener Hall,

His focus, however, wasn't to expose or mock. At its core was a commitment to social justice, particularly to peace in the Middle East, but also to the marginalized everywhere. In a way, that was also at the core of his dedication to a community college, which democratizes education and makes it available to all.

"For him, the idea was for everyone to have a voice. Seeing all the work hand together, you see so much how he wanted the oppressed and those who aren't seen and those who aren't heard to have a place in the world," Ben Tanzer reflected at the exhibit reception.

Michael Tanzer taught at SUNY Broome from 1991 to 2000.

University or WSKG. The college where he inspired countless students seemed the best fit.

"Mike taught here. He loved to teach here," Conrad said.

"His students loved him," Lorna added.

"And he loved the students," her husband said.

While the college is still finalizing a home for the painting, the hope is that it will adorn the new Paul and Mary Calice and Mildred Barton Advanced Manufacturing Center when it opens this fall, Dr. Battisti said.

A wide selection of Tanzer's work is on display through July 25 at the Gallery @ SUNY Broome, located on the first floor of the library.

#### A Binghamton landscape

The Steigerwalds theorize that the Binghamton landscape painting may have been originally commissioned as a mural, perhaps at Binghamton General Hospital before entering private hands. But that's just a theory; all the Steigerwalds know is that the painting had been part of a private collection before it ended up in the Mapes auction house and, after bidding, in their home.

"It is truly a Binghamton landscape. He memorialized Binghamton forever and ever," Lorna Steigerwald said.

But a painting of that size can't be displayed in a house, at least not in such a way to do it justice. Conrad suggested donating it to SUNY Broome, Binghamton

Michael Tanzer in a self-portrait.

**A wide selection of Tanzer's work is on display through July 25 at the Gallery @ SUNY Broome, located on the first floor of the library.**

Michael Tanzer worked in a number of artistic media, from oil paintings to ceramics.

## Reminder: Summer parking is now in effect

June 12, 2018

Buzz

Summer parking began on May 29. Faculty and staff may park in any available staff or student lot with the exception of Lot 17 (unless assigned) and the visitors lot. Students must still park in student lots.

**Reminder: Parking permits are still required!**

## Corporate Challenge traffic on June 14

June 12, 2018

Buzz

The Corporate Challenge 5K race will take place at 5 p.m. Thursday, June 14.

From 4:45 to 6 p.m. that day, traffic will be able to exit campus from Lot 1 near the BC Center entrance. Cars will use that specific exit and use South College drive and Lt. Van Winkle to exit campus during that time frame.

**Cars will only be permitted to leave campus during this time frame.** Due to safety issues, no cars will be permitted to enter campus during the 5K race.

Employees from The Agency who plan to leave between 4:45 and 6 p.m. are advised to park in Lot 1 the day of the race.

## Speakers of the House set summer meeting dates

June 13, 2018

Buzz

Speakers of the House, Toastmasters International at SUNY Broome, will meet at 3:10 p.m. in the Darwin R. Wales Center, Room 203B, on the following Fridays: June 15, June 22 (Club Business Meeting), July 6, July 20, August 3 and August 17. Visitors are welcome, whether you're a novice speaker, a leadership guru or somewhere in between. For more information, visit [SpeakersoftheHouse.Toastmastersclubs.org](http://SpeakersoftheHouse.Toastmastersclubs.org) or find us on Facebook at Speakers of the House.

## Join us for Irish Literature in the Fall and see Ireland with new eyes!

June 13, 2018

Buzz

Ireland is known for striking beauty, political turmoil, and a long and illustrious literary history. Join Professors Mary Donnelly and Andrew Haggerty in an exploration of LIT 277: Irish Literature, followed by an eight-day trip to the Emerald Isle.

The course surveys Irish literature from the Bronze Age to the modern era. In January, we will explore Ireland through the literary lens, staying in Dublin, Galway and Sligo, places which inspire the imagination. Local agents Carr's Holidays are designing an exclusive travel package just for us!

Please contact Dr. Mary Donnelly at (607) 778-5323 for more information.

# On-campus construction activities for the week of June 11

June 14, 2018

Buzz

*Work has begun at the former Carnegie Library site in Binghamton.*

Work has begun at the former Carnegie Library site in Binghamton.

## **Calice Advanced Manufacturing Center**

- VCT (floor tile) installation continues in the classrooms/corridors
- Exterior concrete sidewalk/sub base work (pavers) continues
- Light pole bases are scheduled for delivery this week
- All exterior door frames should be set this week
- All windows have been installed in the Connector curtain walls
- Whiteboards are being installed in classrooms/labs
- The first floor ceiling grid is nearing completion
- Work on the terrazzo floor in the Connector should begin next week

## **Carnegie Culinary Arts Center**

- The project's construction field office has been established at 95 Court Street in downtown Binghamton
- All remaining asbestos abatement work has been completed (windows, roof, caulking, doors)
- Temporary water and power (electric) to the site has been established
- Interior demolition work continues
- Meetings have been held to discuss underpinning construction (including some preliminary excavation)

As always, if anyone has any questions, please contact David Ligeikis at (607) 765-9710

## **Main cafe to be closed June 15, Blue Line to be open instead**

June 14, 2018

Buzz

The main café will be closed on Friday, June 15. Instead, American Dining Creations will open the Blue Line Concession Stand in the Ice Center that day from 11 a.m. to 3 p.m. for the Chamber of Commerce Job Fair.

We will continue regular summer hours at the main café (M-F 9:30-2) on Monday, June 18.

# Sign up for the Rape Aggression Defense (RAD) Self Defense Course this summer

June 17, 2018

Buzz

SUNY Broome's Public Safety and Criminal Justice & Emergency Services Department are sponsoring a Rape Aggression Defense (RAD) Course for female students, faculty and staff. RAD is a realistic self-defense tactics and techniques training program for women. This program includes lecture, discussion and physical resistance strategies taught by certified RAD Instructors.

The course will be held in the Baldwin Gym beginning on Monday, July 9, 2018, from 4:30 to 6 p.m. and will run for four weeks. Class dates are July 9, 11, 16, 18, 23, 25, 30, and August 1.

Class size is limited and acceptance in the class will be on a first-come, first-serve basis. A \$10 fee will be collected upon registration. This fee will be returned upon completion of the course. In order to complete the course, participants must attend at least 90% of the course.

To sign up for the course, contact Public Safety in person. The Public Safety Annex is open Monday through Friday from 9 a.m. to 5 p.m.

R.A.D. website <http://www.rad-systems.com/>

# Chamber Music concert with SUNY Broome instructor Paul Sweeny

June 20, 2018  
Buzz

Classical guitarist Paul Sweeny, an instructor in SUNY Broome's music program, will present a chamber music concert at 3 p.m. Sunday, June 24, at the Unitarian-Universalist Church at 183 Riverside Drive Binghamton (next to Lourdes Hospital).

Half of the program will be from the Baroque Period and half from the 20th and 21st centuries. The music will feature many different combinations of guitar, voice, recorder, cello, and viola da gamba. The composers include Henry Purcell, John Dowland, G. P. Telemann and several obscure composers who nonetheless wrote wonderful music.

# On-campus construction for the week of June 18

June 20, 2018  
Buzz

## Calice Advanced Manufacturing Center

- Concrete sidewalk and curb installation work continues
- Painting has been completed in the Connector and lighting has been installed
- The ceiling grid on the first floor is nearing completion
- Lab equipment is being moved back into Calice
- VCT flooring on the first floor is approximately 75% complete, the second floor is approximately 95% complete
- Work continues on door frames and door fronts

## Carnegie Culinary Center

- Both interior and exterior demolition continues
  - Windows have been measured for fabrication
- As always, if anyone has any questions, please contact David Ligeikis at (607) 765-9710.

## Visions Federal Credit Union representative on campus June 28

June 20, 2018

Buzz

A representative from Visions Federal Credit Union will be in the Student Center from 10:30 a.m. to 12:30 p.m. Thursday, June 28.

Open a new membership, checking account and debit card, and \$50 can be yours. The offer is only available during the June 28 visit. Click the attachment below for more details.

# Young Hornets: P-Tech graduates its first class

June 20, 2018  
Featured News

*The inaugural Southern Tier P-Tech class is now graduating from high school.*

P-Tech students prepare for their June 13 graduation ceremony.

BOCES.

The six-year program supports students in earning both their high school diploma and associate's degree from SUNY Broome in health science, computer technology or engineering technology. Students are also supported by industry partners, who provide mentorship, guidance and workplace learning during the six years.

P-Tech students line up for their graduation ceremony.

- Gage Gailit of Binghamton, Mechanical Engineering Technology
- Paige Gill of Chenango Valley High School, Computer Technology
- Callie Grassi of Maine-Endwell High School, Health Studies
- Thomas Horan of Susquehanna Valley, Mechanical Engineering Technology
- Michael Huang of Binghamton, Computer Technology
- Lily Matthews of Maine-Endwell, Health Studies
- Brock McWherter of Harpursville, Civil Engineering Technology
- Christian Miller of Union-Endicott, Computer Technology
- Yana Moroz of Chenango Valley, Health Studies
- Pilar Morrison of Union-Endicott, Health Studies

Southern Tier P-Tech celebrated its very first graduating class, who will be attending SUNY Broome full-time this fall.

Funded by a grant, the Pathways in Technology Early College High School (P-TECH) program is a collaboration between SUNY Broome, Broome-Tioga BOCES, area school districts and a half-dozen industry partners, and is designed to provide a career pathway for economically disadvantaged students.

“The P-Tech program makes a college education possible for many young people who might not otherwise be able to afford it,” said SUNY Broome Executive Vice President and Chief Academic Officer Francis Battisti, who gave the keynote address during the June 13 celebration. “The goal is to get you a college degree in a much-needed field – and a rewarding career.”

The inaugural Southern Tier P-Tech class is now graduating from high school.

The  
Class of 2018

entered the program four years ago, and were among the very first P-Tech classes in the State of New York. They will be transitioning to the next phase of P-Tech, as full-time students of SUNY Broome this fall.

The P-Tech Class of 2018 includes:

- Khalid Abdallah of Binghamton High School, Computer Technology
- Alexis Barreca of Owego Free Academy, Health Studies
- Jacob Brady of Johnson City High School, Computer Technology
- Nathaniel David of Susquehanna Valley High School, Computer Technology
- Seth DeLeo of Binghamton, Mechanical Engineering Technology
- Manuella Diluzio of Harpursville High School, Health Studies
- Matthew DuBois of Union-Endicott High School, Mechanical Engineering Technology

- Brandon Padgett of Johnson City, Mechanical Engineering Technology
- Kassandra Rodriguez of Binghamton, Health Studies
- Dovea Sibley of Windsor High School, Health Studies
- Holden Snow of Johnson City, Mechanical Engineering Technology
- Devin Sutton of Union-Endicott, Computer Technology
- Brandon Swindler of Owego, Mechanical Engineering Technology
- Tyriq Tyler-Rainey of Binghamton, Health Studies
- Christopher White-Cooley of Binghamton, Computer Technology
- Jonathan Zendanovich of Windsor, Civil Engineering Technology

Additionally, Diluzio, Gailit, Gill, Grassi, Huang, Matthews, Sutton, Swindler and White-Cooley were honored for successfully completing 20 or more college credits, while McWherter and Moroz completed 30 or more.

P-Tech students process at the start of their graduation ceremony.

“Being a college student is an exciting time. It gives you opportunities to develop as a young adult, not only in your chosen field, but as an individual,” Dr. Battisti said. “You are role models to all those who come after you as P-Tech students, as well as future generations of Hornets.”

The event also honored current P-Tech studies with an array of awards. Gray Dailey won an award in Health Studies, while Caleb Richardson earned one in Computer Technology, Justin Vaughan in Engineering Technology, Mariah Kirchner in Math and Amara Molazem in Science. Clyde Van Dyke was named the Shining Star, and Molazem the Skills USA National Delegate, the first Broome-Tioga BOCES student to be selected for this designation.

SUNY Broome Executive Vice President and Chief Academic Officer Francis Battisti speaks during the P-Tech graduation ceremony.

# Congratulations to our Dean's List recipients!

June 20, 2018  
Buzz

SUNY Broome announces its Dean's List for the Spring 2018 Semester. The Dean's List is comprised of full-time matriculated students who have a semester grade point average between 3.50 and 3.79.

The Dean's List recipients are:

Abbott, Jordan

Abla, Stephanie

Abraha, Sahba Teklu

Alapeck, Garrett Andrew

Allan, Joshua Richard

Allen, Zachary James

# BC Center to receive play equipment donation from the American Heart Association on June 25

June 20, 2018  
Featured News

SUNY Broome’s BC Center will receive outdoor play equipment from the American Heart Association at 10:30 a.m. Monday, June 25, at the campus childcare facility.

SUNY Broome was named a Children’s Health Challenge winner following the Southern Tier Heart Walk, which took place in April on campus.

To qualify for the designation from the American Heart Association, the college pledged to raise \$2,500 more for the Southern Tier Heart Walk in 2018 than in the previous year. Challenge accepted, challenge completed: The SUNY Broome team raised \$6,486 in 2018, up from \$3,320 in 2017.

As a result, BC Center — the campus preschool — will receive a “recess pack” full of bats, balls, jump ropes and other sports activities to give them a head start on a healthy lifestyle.

Gina Chapman will make the presentation to BC Center director Pam Holland during a brief ceremony.

# Healthy habits start early: American Heart Association donates play equipment to BC Center

It didn't take long for the bats, balls and jump ropes to leave their big red sack, and end up in the hands of some very excited tykes.

On June 25, the American Heart Association presented the "recess pack" to the BC Center on the SUNY Broome campus. The licensed childcare center serves the children of SUNY Broome students, as well as faculty, staff and community members.

"We want these kids to go outside, get active and play," said AHA Regional Director Gina Chapman, as the center's young charges jumped rope and played Wiffle ball on the playground behind the daycare.

The donation of outdoor play equipment came by way of SUNY Broome's designation as a Children's Health Challenge winner following the Southern Tier Heart Walk, which took place in April on campus.

To qualify for the designation from the American Heart Association, the college pledged to raise \$2,500

more for the Southern Tier Heart Walk in 2018 than in the previous year. Challenge accepted, challenge completed: The SUNY Broome team raised \$6,486 in 2018, up from \$3,320 in 2017. Overall, the walk raised more than \$268,000 in donations from the community this year.

"Our team was really energized this entire year," said Professor Carla

Members of SUNY Broome's Heart Walk committee with BC Center Pam Holland and the college's award for participation in the Heart Walk.

Michalak, speaking on behalf of the campus committee that organizes the campus' Heart Walk efforts.

Fundraising events include a volleyball game that pitted students against faculty and staff, a t-shirt sale that netted \$2,000, a carnation sale, and a basketball game organized by Professor Ed Yetsko's Sports Management students. Committee leaders Deena Price and Erin O'Hara-Leslie were

instrumental in this year's success, as well as Jeff Hatala, who played a major role in coordinating the sport events.

The Heart Walk effort also coordinates well with the college's Wellness Challenge, which encourages healthy habits and physical fitness, Michalak said.

She added that the SUNY Broome community also deeply supports the work of the BC Center, which enables student parents to attend class and study while their children enjoy high-quality and affordable child care right on campus.

Making physical activity a habit early in life is important for long-term health outcomes. Studies show that children who are overweight by the age of 12 have a 70 percent chance of staying overweight as an adult – a risk factor for heart disease, Chapman noted.

The BC Center makes an effort to instill a love of movement and keep the children active.

"We try to get them outside every day, no matter the weather," Director Pam Holland said.

# Hardcore Hospitality: Nicole learns more than she expected while pursuing her degree

June 26, 2018

Nicole Grover

Nicole Grover

Nicole Grover didn't expect to learn as much as she did in her college classes.

She has worked for years in the hospitality industry, and has a certificate in culinary arts from the Indiana University of Pennsylvania Academy of Culinary Arts. A dual major in Hotel and Restaurant Management and Event Management, she decided to improve her career advancement opportunities by earning a college degree, and opted for SUNY Broome.

"I feel like it takes both experience and a degree," she said of her decision to head back to school. "This program gives you a lot of experience to go with it. You're not just getting a piece of paper, but a lot of knowledge as well."

She attends SUNY Broome part-time, juggling her classes with a

demanding schedule at Guthrie Robert Packer Hospital, where she supervises the kitchen and oversees all catering events. In fact, the operation caters multiple events daily, ranging from a few people at meetings to the annual Guthrie summer picnic with a crowd of 1,500.

As with many jobs in the hospitality industry, hours can vary widely, which can make juggling classes and homework difficult. In addition to working with her boss on schedule adjustments, Grover also opts to take as many online courses as she can to give herself flexibility. So far, she has taken online courses in college writing, hotel and restaurant cost control, and even an internship. (For that last, the internship is in-person, but the coursework is done online.)

Still, she enjoys the hands-on nature of her on-campus courses, including wedding planning, catering and even Food in History and Society, which she didn't initially think she would enjoy.

"So far, I've enjoyed all of my classes. The professor that does food and history was really awesome, a little old school. I learned more than I thought I was going to learn – how food becomes a thing, how coffee became popular, the beginning of Coke products," she reflected. "I came out with something I didn't think I was going to. Even in the catering class, I learned things I haven't learned in the industry."

Hospitality Programs Chair Rey Wojdat and Event Management Professor Maria Montemagno are also "hardcore" – tough professors who demand the best from their students, Grover said. While not every student may appreciate this, the program's rigor and high standards can only help once students graduate and enter the industry, which is also demanding and fast-paced.

But that's part of the reason Nicole Grover loves the hospitality industry.

"I love the ever-changing nature of it – the changing trends, the diet trends, how catering events are set up, planning an event, customer service," she said.

Now 30 years old, she's not entirely sure where her SUNY Broome education will take her – and that's okay. That, too, is the nature of the hospitality business.

"In this industry, there are so many things you can do. You can change your mind in five years and master something else," she said.

## Call for volunteers: Move-In Day on Aug. 25

June 26, 2018

Buzz

Campus community: Volunteers make campus a warm and welcoming place for the new school year! Help students start the year on a positive note by lending a hand at the Student Village's annual Move-In Day.

Whether it be for one hour or all day, we can certainly use the help making our students feel at home! Move-in takes place from 8 a.m. to 4 p.m. on Saturday, August 25th. If you are interested in assisting with Move-In Day, please click here to fill out the form.

Volunteers will receive free SUNY Broome t-shirts while supplies last!

**Volunteers are urgently needed and your help will be greatly appreciated!**

## Water service in AT on the morning of June 28

June 27, 2018  
Buzz

The water to the Applied Technologies Building will be turned off at 7 a.m. Thursday, June 28, for maintenance work. Plans are to have it restored by 9 a.m. We apologize for the inconvenience.

# Interfaith Space

June 28, 2018  
Buzz

The Interfaith Space is an inclusive and welcoming space for students, faculty, and staff, who are of diverse religious and non-religious backgrounds. This room is designated as a space intended for prayer, contemplation, meditation, reflection, and practice. Open to all faiths.

Location: Old Science Building, Room 201

Hours: 8am to 5pm when classes are in session

# On-campus construction for the week of June 25

June 29, 2018  
Buzz

## Calice Advanced Manufacturing Center

- Blacktop paving on the west and north sides of Calice has been completed (pavers to follow)
- Installation of the epoxy floor in both the Fermentation Lab and Food Processing Lab has been completed
- The ceiling grid is 90% complete in the first floor corridor and lighting has been mounted
- VCT (vinyl) flooring and painting has been completed in the basement storage room (soon to become the new photography lab)
- HVAC start up and balancing will take place on June 29, 2018
- Surface mounted lighting has been placed under the overhang within the Connector
- Construction of the east vestibule for the Connector has started
- The new elevator has been delivered and installation will commence
- Door auto operators have been installed
- Glass has been installed at the sidelights on the first level
- Commissioning of the photovoltaic system has taken place
- The Fire Department connection is in place

## Carnegie Culinary Center

- The basement concrete floor has been removed
- Excavation exposing the foundation is in progress (for underpinning construction)
- The rear addition to the Library has been completely removed
- Overall demolition is approximately 90% complete
- Electrical rough-ins (ceilings and walls) is underway
