

Adam Hatala honored by the American Chemical Society

May 4, 2015

Adam Hatala was recognized for his achievements by the Binghamton Local Section of the American Chemical Society (ACS) at its annual Awards Dinner on April 29.

Dr. Daniel Brennan, a SUNY Broome chemistry professor and 2015 Local Section Chair, presented Hatala with an Outstanding Graduating Senior Award, which includes an engraved plaque and a monetary prize.

Hatala is a student in the LAAS program; he plans to major in Biochemistry at his transfer institution after he graduates this semester. He is also president of the college Chemistry Club and was instrumental in reactivating the SUNY Broome ACS Student Chapter.

The Binghamton Local Section recognizes one Outstanding Graduating Senior each year from Binghamton University, Hartwick College, SUNY Broome and SUNY Oneonta.
