

Admissions: More than 15 schools visited campus this fall

January 7, 2015

As the campus wraps up for the fall semester and finalizes the Spring class, the Admissions Office would like to share some positive news and thank everyone for their efforts with campus visits this semester. We have had over 15 different schools come visit the campus during the fall semester. These students came from the Syracuse area, New York City area, and many local schools as well. Between the high school visits, campus information sessions, and Explore SUNY Broome we had over 600 guests visit the campus this past semester, and the high school visitation requests are already rolling in for the spring semester.

We have received very positive feedback from these visits. One guidance counselor told us that Broome is the #1 college for applications from his students and he associated this directly with their campus visit!

I would like to sincerely thank everyone that has been a part of these visits. Many faculty members have hosted students for a mock-class presentation, housing has assisted with accessibility, and various support offices had presented on the wonderful services available to these prospective students including the Learning Assistance Center, TRiO, and the Educational Opportunity Program. These visits would not have been possible without the help from our event staff. Thank you again everyone for your support and help, there is no way this season would have been successful without the efforts of the entire campus.

I hope everyone enjoyed their well-deserved holiday break and I look forward to further collaborations in the Spring!

Maureen Kollar
