

Art Department faculty represented in Roberson regional exhibition

June 10, 2015

Art & Design Instructor Mark Williamson's recent mural painting *Origins* will be included in the Roberson Regional Art Exhibition from July 10 to October 25, 2015, at the Roberson Museum and Science Center in Binghamton.

The opening reception for the show runs from 1 to 4 p.m. Sunday, July 12.

Origins is composed of fifteen 18-inch by 36-inch panels, and is painted in oil and acrylic. The mural was created from July 2013 until September 2014, and this will be the first time the entire painting will be on public display. *Origins* is a work best described as a meditation on peace, tolerance and hope, and was primarily painted during the conflict between Israel and Hamas.
