

National Society of Leadership and Success induction **updated with photos**

June 1, 2015

Ninety students were inducted into the National Society of Leadership and Success on May 15 in the Baldwin Gymnasium. These students have worked very hard to earn their induction status. These students completed leadership training, participated in broadcast speaker events, and established goals and action steps for themselves to reach those goals.

This semester concludes the first year of the National Society of Leadership and Success chapter at SUNY Broome. A total of 628 students have registered and begun their induction steps; 209 have met their induction steps and 16 have gone above and beyond to earn their engaged leadership award. We look forward to inviting the next cohort of students to join this program in the fall and engaging them in leadership development.
