September 9, 2015

SUNY Broome faculty members aren't just accomplished teachers, although students remain the center of their lives and careers. They are also scholars who are well-versed in their fields of study – and now have the chance to demonstrate their knowledge outside the classroom.

College personnel who are working on their doctorates will have a chance to present their dissertation topics and research methodologies at a series of Doctoral Colloquia, which run from 3 to 4:30 p.m. the second Wednesday of every month in the Teaching Resource Center, located in library room LI 101.
